Thank you for purchasing this Panasonic product. Please read these instructions carefully before operating this product and retain them for future reference. The images shown in this manual are for illustrative purposes only.
**Features**

**DVB-T tuner built-in**
Receives DVB (Digital Video Broadcasting) digital terrestrial broadcasts.

**DVB-T2 tuner built-in [UK only]**
DVB-T2 is an advanced digital terrestrial system for more efficient transmission. Available DVB-T2 broadcasts will be tuned automatically when you perform DVB Auto Setup.

**GUIDE Plus+ [p. 21] [UK only]**
This TV supports the TV Guide services sent from the GUIDE Plus+ system.

**Sharp pictures and clear sound with HDMI connection [p. 96]**
Enjoy high definition digital picture and high quality sound by using an HDMI cable.

* This TV supports HDMI (Version 1.4 with Audio Return Channel), Deep Colour, x.v.Colour™.

**Using USB devices**
Enjoy recording and playback of digital terrestrial programmes to the USB HDD. (p. 54, 65)

Enjoy the photo, video and music in the USB Flash Memory on Media Player. (p. 58)

Wireless LAN Adaptor for the network connection. (p. 6, 11, 13)

USB keyboard, gamepad, etc. are available. (p. 97)

**Timer Programming [p. 22, 45]**
Timer Programming enables you to use functions such as programme reminder and programme recording to the external recorder / formatted USB HDD.

**VIERA IMAGE VIEWER - SD Card viewer in Media Player [p. 58]**
Enjoy your photos or videos recorded on an SD Card on the TV screen.

**SDXC Card**
This TV supports SDXC Card. SDXC is the latest standard of SD Card and a higher storage capacity card.

**DLNA**
DLNA is a standard that makes digital electronics easier and more convenient to use on a home network. For example, you can enjoy watching photos and videos stored in the PC connected to your home network by accessing from the TV. (p. 77)

**VIERA Connect - Enjoy great web entertainment [p. 16, 80]**
Enjoy the internet contents on the TV such as photos, videos, weather, video communication (ex. Skype™), etc. through an easy-to-use web interface that is built into the TV.

**Link up and control the connected equipment with “Q-Link” and “VIERA Link” [p. 81, 82]**
Q-Link and VIERA Link provide easy recording and playback, creation of a home theatre without complicated settings, etc.

**VIERA TOOLS - Display special feature icons for easy accessibility [p. 29]**
Special features (such as VIERA Link and Media Player) can be accessed easily by using the VIERA TOOLS button.

**Dolby Digital Plus / Dolby Pulse decoders**
It is possible to decode Dolby Digital Plus / Dolby Pulse multi-channel audio tracks and output as Dolby Digital Bitstream (multi-channel sound signal) from DIGITAL AUDIO OUT / HDMI2 (ARC function) terminals.

**Owner ID [p. 50]**
Owner ID is an anti-theft function. Entering the PIN number and owner’s personal information will help the Police to determine the owner in the case of theft.

**Supports Audio Description signal [p. 18, 33] [UK only]**
Audio Description (when broadcast) adds an additional soundtrack to describe events on screen (narration) and aids understanding and enjoyment, particularly for visually-impaired viewers.

You can switch Audio Description service Auto or Off, and adjust the volume of the description soundtrack independently of the main volume.

---

**Digital Switchover for Terrestrial broadcasts [UK only]**
Starting in late 2007 and ending in 2012, TV services in the UK will go completely digital, TV region by TV region.

If you have any questions, please call Digital UK on 08456 50 50 50 or visit www.digitaluk.co.uk

Digital Switchover will cover a period of several weeks. When it starts you will lose all Analogue TV channels and some Digital TV channels will be missing.

You will need to retune your TV each time this happens to recover your digital channels. Analogue channels are permanently turned off, it will not be possible to recover them.

- **To retune your TV**
  
  ➤ [Auto Setup] in [DVB Tuning Menu]-DVB mode (p. 40)

Users of cable or satellite boxes should still retune the TV to continue to receive Freeview channels via their aerial. (Your Analogue channel for viewing Cable or Satellite services will change to a new position.)

- Due to the digital reception technologies involved, quality of the digital signals may be relatively low in some cases, despite good reception of analogue channels.
Transport only in upright position

The recording and playback of content on this or any other device may require permission from the owner of the copyright or other such rights in that content. Panasonic has no authority to and does not grant you that permission and explicitly disclaims any right, ability or intention to obtain such permission on your behalf. It is your responsibility to ensure that your use of this or any other device complies with applicable copyright legislation in your country. Please refer to that legislation for more information on the relevant laws and regulations involved or contact the owner of the rights in the content you wish to record or playback.

Safety Precautions

Warning

Mains plug and lead

To help avoid risk of electrical shock, fire, damage or injury, please follow the warnings below:

- This TV is designed to operate on AC 220-240 V, 50 / 60 Hz.
- Insert the mains plug fully into the socket outlet.
- Ensure that the mains plug is easily accessible.
- Remove the mains plug when cleaning the TV.

- Do not touch the mains plug with a wet hand.
- Do not damage the mains lead.
  - Do not place a heavy object on the lead.
  - Do not place the lead near a high temperature object.
  - Do not pull on the lead. Hold onto the mains plug body when disconnecting the plug.
  - Do not move the TV with the lead plugged into a socket outlet.
  - Do not twist the lead, bend it excessively or stretch it.
  - Do not use a damaged mains plug or socket outlet.
  - Ensure the TV does not crush the mains lead.

If you detect anything unusual, immediately switch off the mains supply switch and remove the mains plug.

AC 220-240 V
50 / 60 Hz

IMPORTANT: THE MOULDED MAINS PLUG

FOR YOUR SAFETY, PLEASE READ THE FOLLOWING TEXT CAREFULLY.

This TV is supplied with a moulded three pin mains plug for your safety and convenience. A 5 amp fuse is fitted in this mains plug. Shall the fuse need to be replaced, please ensure that the replacement fuse has a rating of 5 amps and that it is approved by ASTA or BSI to BS1362.

Check for the ASTA mark or the BSI mark on the body of the fuse.

If the mains plug contains a removable fuse cover, you must ensure that it is refitted when the fuse is replaced.

If you lose the fuse cover the mains plug must not be used until a replacement cover is obtained.

A replacement fuse cover may be purchased from your local dealer.

If the fitted moulded mains plug is unsuitable for the socket outlet in your home, then the fuse shall be removed and the mains plug cut off and disposed of safely. There is a danger of severe electrical shock if the cut off mains plug is inserted into any 13 amp socket.

If a new mains plug is to be fitted, please observe the wiring code as shown below.

If in any doubt, please consult a qualified electrician.

IMPORTANT: – The wires in this mains lead are coloured in accordance with the following code: –
Blue: Neutral   Brown: Live

As the colours of the wire in the mains lead of this appliance may not correspond with the coloured markings identifying the terminals in your mains plug, proceed as follows.

The wire which is coloured BLUE must be connected to the terminal in the mains plug which is marked with the letter N or coloured BLACK.

The wire which is coloured BROWN must be connected to the terminal in the mains plug which is marked with the letter L or coloured RED.

Under no circumstances should either of these wires be connected to the Earth terminal of the three pin mains plug, marked with the letter E or the earth symbol ⬇.

How to replace the fuse

For plug type shown in example 1:
Lift out the removable fuse compartment with a screwdriver and replace the fuse, then refit securely into the mains plug (see example 1).

For plug type shown in example 2:
Lift open the fuse compartment, in the mains plug, with a screwdriver, and replace the fuse, then press the fuse cover down securely (see example 2).

IMPORTANT: THE MOULDED MAINS PLUG

FOR YOUR SAFETY, PLEASE READ THE FOLLOWING TEXT CAREFULLY.

This TV is supplied with a moulded three pin mains plug for your safety and convenience. A 5 amp fuse is fitted in this mains plug. Shall the fuse need to be replaced, please ensure that the replacement fuse has a rating of 5 amps and that it is approved by ASTA or BSI to BS1362.

Check for the ASTA mark or the BSI mark on the body of the fuse.

If the mains plug contains a removable fuse cover, you must ensure that it is refitted when the fuse is replaced.

If you lose the fuse cover the mains plug must not be used until a replacement cover is obtained.

A replacement fuse cover may be purchased from your local dealer.

If the fitted moulded mains plug is unsuitable for the socket outlet in your home, then the fuse shall be removed and the mains plug cut off and disposed of safely. There is a danger of severe electrical shock if the cut off mains plug is inserted into any 13 amp socket.

If a new mains plug is to be fitted, please observe the wiring code as shown below.

If in any doubt, please consult a qualified electrician.

IMPORTANT: – The wires in this mains lead are coloured in accordance with the following code: –
Blue: Neutral   Brown: Live

As the colours of the wire in the mains lead of this appliance may not correspond with the coloured markings identifying the terminals in your mains plug, proceed as follows.

The wire which is coloured BLUE must be connected to the terminal in the mains plug which is marked with the letter N or coloured BLACK.

The wire which is coloured BROWN must be connected to the terminal in the mains plug which is marked with the letter L or coloured RED.

Under no circumstances should either of these wires be connected to the Earth terminal of the three pin mains plug, marked with the letter E or the earth symbol ⬇.

How to replace the fuse

For plug type shown in example 1:
Lift out the removable fuse compartment with a screwdriver and replace the fuse, then refit securely into the mains plug (see example 1).

For plug type shown in example 2:
Lift open the fuse compartment, in the mains plug, with a screwdriver, and replace the fuse, then press the fuse cover down securely (see example 2).
Warning

■ Take care
To help avoid risk of electrical shock, fire, damage or injury, please follow the warnings below:

• Do not remove covers and never modify the TV yourself as live parts are accessible when they are removed. There are no user serviceable parts inside.

• Do not expose the TV to rain or excessive moisture. This TV must not be exposed to dripping or splashing water and objects filled with liquid, such as vases, must not be placed on top of or above the TV.

• Do not expose the TV to direct sunlight and other sources of heat. To prevent fire never place any type of candle or naked flame on top or near the TV.

• Do not place the TV on sloped or unstable surfaces, and ensure that the TV does not hang over the edge of the base.

• Do not insert foreign objects into the TV through the air vents.
• Do not use an unapproved pedestal / mounting equipment. Be sure to ask your local Panasonic dealer to perform the setup or installation of approved wall-hanging brackets.
• Do not apply strong force or impact to the display panel.
• This TV is designed for Table-top use.

To prevent the spread of fire, keep candles or other open flames away from this product at all times

■ Small object
This product contains possibly dangerous parts that can be breathed in or swallowed by young children accidentally.

• Keep the dangerous parts out of reach of young children.
• Do not allow children to handle SD Card. As with any small object, the SD Card could be swallowed by young children. Please remove SD Card immediately after use and store out of reach of young children.

Caution

■ Ventilation
Allow sufficient space around the TV in order to help prevent excessive heat, which could lead to early failure of some electronic components.

• Ventilation should not be impeded by covering the ventilation openings with items such as newspapers, tablecloths and curtains.

• Whether you are using the pedestal or not, always ensure the vents in the bottom of the TV are not blocked and there is sufficient space to enable adequate ventilation.

■ Moving the TV
Before moving the TV, disconnect all cables.

■ When not in use for a long time
This TV will still consume some power even in the Off mode, as long as the mains plug is still connected to a live socket outlet.

• Remove the mains plug from the wall socket when the TV is not in use for a prolonged period of time.

■ Excessive volume
Do not expose your ears to excessive volume from the headphones. Irreversible damage can be caused.
## Accessories / Options

### Standard accessories

- **Remote Control**
  - N2QAYB000490
  - N2QAYB000672
- **Batteries for the Remote Control (2)**
  - R6
  - (p. 7)
- **Pedestal**
  - TX-L32E30B:
    - TBL5ZX0140
    - TBL5ZX0028
    - TXFPE01NUUE
  - TX-L37E30B:
    - TBL5ZX0144
    - TBL5ZX0028
    - TXFPE01NUUE
  - TX-L42E30B:
    - TBL5ZX0149
    - TBL5ZX0166
    - TXFPE01NUUE

- **Operating Instructions**
- **Product Registration Leaflet**

### Optional accessories

Please contact your nearest Panasonic dealer to purchase the recommended optional accessories. For additional details, please refer to the manual of the optional accessories.

- **Wireless LAN Adaptor**
  - DY-WL10E-K
  - **Caution**
    - To use the Wireless LAN Adaptor, an access point needs to be obtained.
    - It is recommended to use the Wireless LAN Adaptor with the extension cable.
    - To avoid malfunctions caused by radio wave interference, keep the TV away from the devices such as other wireless LAN devices, microwaves and the devices that use 2.4 GHz and 5 GHz signals when using the Wireless LAN Adaptor.
    - Depending on the area, this optional accessory may not be available.
    - Additional information for Wireless LAN Adaptor and access point may be on the following website. (English only)

- **Communication Camera**
  - TY-CC10W
  - **Caution**
    - This camera can be used on VIERA Connect (p. 16, 80).
    - Please also read the manual of the camera.
    - Depending on the area, this optional accessory may not be available.
    - For details, consult your local Panasonic dealer.

- **Wall-hanging bracket**
  - TY-WK3L2RW
  - The angle of wall-hanging bracket can be adjusted in “zero tilting (vertical)” and “10-degree tilting” for this TV.
  - **Warning**
    - Using other wall-hanging brackets, or installing a wall-hanging bracket by yourself has the risk of personal injury and product damage. In order to maintain the unit’s performance and safety, be sure to ask your dealer or a licensed contractor to secure the wall-hanging brackets. Any damage caused by installing without a qualified installer will void your warranty.
    - Carefully read the instructions accompanying optional accessories, and be sure to take steps to prevent the TV from falling off.
    - Handle the TV carefully during installation since subjecting it to impact or other forces may cause product damage which will void your warranty.
    - Do not mount the unit directly below ceiling lights (such as spotlights or halogen lights) which typically give off high heat. Doing so may warp or damage plastic cabinet parts.
    - Take care when fixing wall brackets to the wall. Wall mounted equipment must not be grounded by metal within the wall. Always ensure that there are no electrical cables or pipes in the wall before hanging bracket.
    - To prevent fall and injury, remove the TV from its fixed wall position when it is no longer in use for an extended period of time.
Attaching / removing the pedestal

To help avoid risk of damage or injury by the TV tipping or falling, please follow the warnings and cautions below:

**Warning**
- Do not disassemble or modify the pedestal.

**Caution**
- Do not use any pedestal other than the one provided with this TV.
- Do not use the pedestal if it becomes warped or physically damaged. If this occurs, contact your nearest Panasonic dealer immediately.
- During setup, make sure that all screws are securely tightened.
- Ensure that the TV does not suffer any impact during installation of the pedestal.
- Ensure that children do not climb onto the pedestal.
- Install or remove the TV from the pedestal with at least two people.

### Assembly screws

**A** Assembly screw (4)
- XSS5+15FNK
  - M5 × 15

**B** Assembly screw (4)
- XYN4+F30FJK
  - M4 × 30

### Bracket

**C** Bracket
- TBL5ZA3017
  - TX-L32E30B
  - TX-L37E30B
- TBL5ZA3014
  - TX-L42E30B

### Base

**D** Base
- TBL5ZX0140 (TX-L32E30B)
- TBL5ZX0144 (TX-L37E30B)
- TBL5ZX0149 (TX-L42E30B)

#### Assembling the pedestal

Use the assembly screws **A** to fasten the bracket **C** to the base **D** securely.
- Make sure that the screws are securely tightened.
- Forcing the assembly screws the wrong way will strip the threads.

#### Securing the TV

Use the assembly screws **B** to fasten securely.
- Tighten the four assembly screws loosely at first, then tighten them firmly to fix securely.
- Carry out the work on a horizontal and level surface.

#### Installing / removing remote’s batteries

1. **Pull open**
   - Hook

2. **Note the correct polarity (+ or -)**

**Caution**
- Incorrect installation may cause battery leakage and corrosion, resulting in damage to the remote control.
- Do not mix old and new batteries.
- Replace only with same or equivalent type. Do not mix different battery types (such as alkaline and manganese batteries).
- Do not use rechargeable (Ni-Cd) batteries.
- Do not burn or break up batteries. Batteries must not be exposed to excessive heat such as sunshine, fire, etc.
- Make sure you dispose of batteries correctly.
- Ensure batteries are replaced correctly, there is danger of explosion and fire if battery is reversed.
- Do not disassemble or modify the remote control.
Identifying Controls

**Remote Control**

1. **Standby On / Off switch**  
   - Switches TV On or Off standby
2. **[Media Player]** *(p. 58)*  
   - Switches to SD Card and USB device viewing / listening mode
3. **[Main Menu]** *(p. 30)*  
   - Press to access Picture, Sound, Timer and Setup Menus
4. **Aspect** *(p. 20)*  
   - Changes aspect ratio
5. **Information** *(p. 17)*  
   - Displays channel and programme information
6. **VIERA TOOLS** *(p. 29)*  
   - Displays some special feature icons and accesses easily
7. **[VIERA Link Menu]** *(p. 85)*
8. **OK**  
   - Confirms selections and choices
   - Press after selecting channel positions to quickly change channel
   - Displays the Channel List
9. **[Option Menu]** *(p. 19)*  
   - Easy optional setting for viewing, sound, etc.
10. **Teletext** *(p. 24)*  
    - Switches to teletext mode
11. **Subtitles** *(p. 20)*  
    - Displays subtitles
12. **Numeric buttons**  
    - Changes channel and teletext pages
    - Sets characters
    - When in Standby mode, switches TV On (Press for about 1 second)
13. **Sound Mute**  
    - Switches sound mute On or Off
14. **Volume Up / Down**
15. **Input mode selection**  
    - TV - switches between DVB and Analogue modes *(p. 17)*
    - AV - switches to AV input mode from Input Selection list *(p. 27)*
16. **Direct TV Recording** *(p. 83, 85)*  
    - Records programme immediately in DVD Recorder / VCR with Q-Link or VIERA Link connection
17. **[VIERA Connect]** *(p. 16, 80)*  
    - Displays VIERA Connect home screen
18. **Exit**  
    - Returns to the normal viewing screen
19. **TV Guide** *(p. 21)*
20. **Cursor buttons**  
    - Makes selections and adjustments
21. **Return**  
    - Returns to the previous menu / page
22. **Coloured buttons** *(red-green-yellow-blue)*  
    - Used for the selection, navigation and operation of various functions
23. **Hold**  
    - Freeze / unfreeze picture *(p. 19)*
    - Holds the current teletext page (teletext mode) *(p. 25)*
24. **Index** *(p. 26)*  
    - Returns to the teletext index page (teletext mode)
25. **Last view** *(p. 18)*  
    - Switches to previously viewed channel or input mode
26. **Channel Up / Down**
27. **Connected equipment operations** *(p. 28, 57, 65, 66, 87)*
Using the On Screen Displays - Operation guide

Many features available on this TV can be accessed via the On Screen Display menu.

**Operation guide**

Operation guide will help you to operate by using the remote control.

Example: [Owner ID]

<table>
<thead>
<tr>
<th>Owner ID</th>
</tr>
</thead>
<tbody>
<tr>
<td>Please enter new PIN</td>
</tr>
<tr>
<td>PIN</td>
</tr>
</tbody>
</table>

**How to use remote control**

- **MENU**
  - Open the main menu
- **Move the cursor / select the menu item / select from a range of options**
- **Move the cursor / adjust levels / select from a range of options**
- **Access the menu / store settings after adjustments have been made or options have been set**
- **BACK/RETURN**
  - Return to the previous menu
- **EXIT**
  - Exit the menu system and return to the normal viewing screen

**Auto power standby function**

The TV will automatically go to Standby mode in the following conditions:
- no signal is received and no operation is performed for 30 minutes in Analogue TV mode
- [Off Timer] is active in the Timer Menu (p. 19)
- no operation is performed for the period selected in [Auto Standby] (p. 34)

(This function does not affect the recording of Timer Programming, Direct TV Recording and One Touch Recording.)
Basic Connection

External equipment and cables shown are not supplied with this TV.
Please ensure that the unit is disconnected from the mains socket before attaching or disconnecting any leads.

Example 1
Connecting aerial

**TV only**

Rear of the TV

- **Terrestrial aerial**
- **Aerial input terminal**
- **RF cable**

**How to use the clamper bundling the mains lead**

1. Keep pushing the knob
2. Set the tip in the hooks

**Bundle the cables**

1. Keep pushing both side snaps
2. Keep pushing the knob

**To remove from the TV:**

1. Keep pushing both side snaps
2. Keep pushing the knob

**AC 220-240 V**
50 / 60 Hz

**Mains lead**

**Note**

- Do not bundle the RF cable and mains lead together (could cause distorted image).
- Fix cables with clamping devices as necessary.
- When using the optional accessory, follow the option's assembly manual to fix cables.

Example 2
Connecting DVD Recorder / VCR

**TV, DVD Recorder or VCR**

Rear of the TV

- **Terrestrial aerial**
- **Aerial input terminal**
- **Fully wired HDMI compliant cable**
- **Fully wired SCART cable**
- **DVD Recorder or VCR**

**RF cable**

**Mains lead**

**AC 220-240 V**
50 / 60 Hz

**RF cable**

**Note**

- Connect to the TV’s AV1 for a DVD Recorder / VCR supporting Q-Link (p. 83).
- For HDMI-compatible equipment, possible to connect to HDMI terminals (HDMI1 / HDMI2 / HDMI3 / HDMI4) by using HDMI cable (p. 89).
- Q-Link and VIERA Link connection (p. 81, 82)
- Please also read the manual of the equipment being connected.
- Keep the TV away from electronic equipment (video equipment, etc.) or equipment with an infrared sensor. Otherwise, distortion of image / sound may occur or operation of other equipment may be interfered.

Connecting to the network environment (Network connections)

To enable the network service functions (VIERA Connect, etc.), you need to connect the TV to a broadband network environment.

• If you do not have any broadband network services, please consult your retailer for assistance.
• Connect with LAN cable (Wired connection) or Wireless LAN Adaptor (Wireless connection).
• Setup of the network connection will start after the tuning (when first using the TV) (p. 12 - 14)

Wired connection

LAN cable (Shielded)

• Use the Shielded Twist Pair (STP) LAN cable.

Wireless connection

Wireless LAN Adaptor and Extension cable

“Optional accessories” (p. 6)

• Connect to the USB 1, 2 or 3 port.

Note

• For more information of the network connections (p. 71)
Auto Setup

Search and store TV channels automatically.

- These steps are not necessary if the setup has been completed by your local dealer.
- Please complete connections (p. 10, 11) and settings (if necessary) of the connected equipment before starting Auto Setup.
- For details of settings for the connected equipment, read the appropriate manual.

1. **Plug the TV into mains socket and switch On**
   - Takes a few seconds to be displayed.
   - If the red LED shows on the TV, press the Standby On / Off switch on the remote control for at least 1 second to turn the TV On.

2. **Select your country**
   - United Kingdom
   - Ireland

Example: **UK**

### Auto setup - DVB and Analogue

### Setup the network connection

Setup the network connection to enable the network service functions such as VIERA Connect, etc. (p. 16, 70).

- To setup the wireless connection, the Wireless LAN Adaptor (optional accessory) is required.
- Please note that this TV does not support wireless public access points.
- Ensure the network connections (p. 11) and network environment are completed before starting setup.

3. **Select the network type**

### Network Setup

- Select Wired or Wireless
  - Wired
  - Wireless
  - Set later

- **Wireless** → “Wireless connection” (p. 11)
- **Wired** → “Wired connection” (p. 11)

- To setup later on or skip this step
  - Select [Set later]

If Q-Link or similar technology (p. 83) compatible recorder with analogue tuner is connected, analogue channel setting is automatically downloaded to the recorder. (Digital channel setting is not downloaded.)

- If downloading has failed, you can download later through the Setup Menu.
  → “Q-Link Download” (p. 34)
1. Select [Auto]

**Acquire IP Address**

- **Auto**
- **Manual**

Automatically setup is done and the test of the network connection starts.
- To set manually, select [Manual] and set each item. For details ⇒ (p. 73)

2. Go to the next step

(Press twice)

---

**[Wireless]**

Select the connection type

**Connection Type**

- **Search for access point**
- **WPS(Push button)**

Access points found automatically are listed.

1. Select your desired access point

<table>
<thead>
<tr>
<th>Available Access Points</th>
<th>Wireless type</th>
<th>Encrypt</th>
<th>Reception</th>
</tr>
</thead>
<tbody>
<tr>
<td>No.</td>
<td>SSID</td>
<td>11n(2.4GHz)</td>
<td>11n(5GHz)</td>

</tr>
<tr>
<td>3</td>
<td>Access Point C</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

- To search access points again

(yellow)

- For the information of the highlighted access point

(red)

2. Access the encryption key input mode

**Encryption Key Setting**

Connection will be made with the following settings:
- SSID: Access Point A
- Authentication type: WPA-PSK
- Encryption type: TKIP

Please input the encryption key.

**Encryption key**

- You can set characters by using numeric buttons.
  ⇒ “Characters table for numeric buttons” (p. 96)

3. Enter the encryption key of the access point

**Access Point Settings**

- **Set characters**
- **Store**

4. Select [Yes]

**Access Point Settings**

- **Encryption key**

- **To re-enter the encryption key, select [No].**

- **If the connection has failed, check the encryption key, settings and positions of your access point. And then, follow the on screen instructions.**
5. After the access point setting is finished, perform the connection test

<table>
<thead>
<tr>
<th>Connection Test</th>
</tr>
</thead>
<tbody>
<tr>
<td>✓: succeeded</td>
</tr>
<tr>
<td>The test is successful and the TV is connected to the network.</td>
</tr>
<tr>
<td>✗: failed</td>
</tr>
<tr>
<td>Check the settings and connections, and then select [Retry].</td>
</tr>
<tr>
<td>• To set manually, select [Manual] and set each item. For details ⇒ (p. 73)</td>
</tr>
</tbody>
</table>

6. Go to the next step 4

[Press twice]

[WPS(Push button)]
1. Press the WPS button on the access point until the light flashes
2. Connect the Wireless LAN Adaptor and the access point

<table>
<thead>
<tr>
<th>WPS(Push button)</th>
</tr>
</thead>
<tbody>
<tr>
<td>1) Please press the ‘WPS’ button on the access point until its light flashes.</td>
</tr>
<tr>
<td>2) When the light is flashing select ‘Connect’ on TV.</td>
</tr>
<tr>
<td>If you are unsure, please check the instruction manual of the access point.</td>
</tr>
</tbody>
</table>

If you are unsure, please check the instruction manual of the access point.

3. After the access point setting is finished, perform the connection test

<table>
<thead>
<tr>
<th>Connection Test</th>
</tr>
</thead>
<tbody>
<tr>
<td>✓: succeeded</td>
</tr>
<tr>
<td>The test is successful and the TV is connected to the network.</td>
</tr>
<tr>
<td>✗: failed</td>
</tr>
<tr>
<td>Check the settings and connections, and then select [Retry].</td>
</tr>
<tr>
<td>• To set manually, select [Manual] and set each item. For details ⇒ (p. 73)</td>
</tr>
</tbody>
</table>

4. Go to the next step 4

[Press twice]

Input Owner ID

Please enter your own choice of PIN number, name, etc. to help the police to crack crime.

- Make a note of the PIN number in case you forget it. The PIN number cannot be reset.
- You can input or change the Owner ID later. ⇒ [Owner ID] (p. 50)
- To skip this step

<table>
<thead>
<tr>
<th>Owner ID</th>
</tr>
</thead>
<tbody>
<tr>
<td>Please enter new PIN</td>
</tr>
<tr>
<td>PIN</td>
</tr>
</tbody>
</table>

- This step will be skipped in the Auto Setup after [Shipping Condition] (p. 49) is performed.

**How to input Owner ID**

1. Enter the PIN number (4 digits)

- Enter the PIN number twice at first setting.

2. Select the item (NAME / HOUSE NO / POSTCODE)

- select
- access
3 Enter your name, house number and postcode
Set characters

- You can set characters by using numeric buttons.
  “Characters table for numeric buttons” (p. 96)

4 Exit to go to next step
EXIT

5 Select [Home]
Select [Home] viewing environment (highlight [Home] in yellow) to use in your home environment.

- [Shop] viewing environment (for shop display only)
  [Shop] viewing environment is the demonstration mode to explain main features of this TV.

Select [Home] viewing environment to use in your home environment.
- You can return to viewing environment selection screen at the stage of Shop confirmation screen and Automatic Demo Off / On selection screen.

1 Return to viewing environment selection screen
2 Select [Home]

Auto Setup is now complete and your TV is ready for viewing.

If tuning has failed, check the connection of the RF cable, and then, follow the on screen instructions.

- To check channel list at-a-glance “Using TV Guide” (p. 21)
- To edit or hide (skip) channels “Tuning and Editing Channels” (p. 41 - 44)
- To retune all channels [Auto Setup] (p. 40)
- To initialise all settings [Shipping Condition] (p. 49)

If you connect the Wireless LAN Adaptor later on, the confirmation screen will be displayed for the setup.
- To setup the wireless connection (p. 74 - 76)
Using “VIERA Connect”

VIERA Connect is a gateway to the internet services unique to Panasonic and has expanded VIERA CAST features greatly. VIERA Connect allows you to access some specific websites supported by Panasonic, and enjoy internet contents such as photos, videos, games, etc. from VIERA Connect home screen.
• This TV has no full browser function and all features of websites may not be available.

Turn power on

1 Turn power on
• Press for about 1 second
• Mains power On / Off switch should be On. (p. 9)

Every time you turn on the TV, VIERA Connect introduction banner appears. The banner is subject to change.

Access VIERA Connect

2 Access VIERA Connect
While the banner is displayed
• The button design varies depending on the remote control.

Example :

Example : VIERA Connect home screen

Example :

Last view

Switch to previously viewed channel or input mode easily
   • Press again to return to the present view.

Note

• Switching channel is not available while the recording of Timer Programming, Direct TV Recording or One Touch Recording is in progress.
• Watching less than 10 seconds is not regarded as the previously viewed channel or input mode.
**Hold**

Freeze / unfreeze picture

**HOLD**

**Display the selectable settings for the current status**

Check or change the current status instantly

- **OPTION**
  - To change
    - ① select
    - ② access
  - To adjust the volume for Audio Description
    - [Audio Description Menu] (p. 33)

- **[Audio Description]** (DVB mode)
  - **UK only**
  - Set to [Auto] if the programme has Audio Description service, then you will hear an additional audio track to describe events on screen
  - To adjust the volume for Audio Description
    - [Audio Description Menu] (p. 33)

- **[Multi Audio]** (DVB mode)
  - Allows you to select between alternative language for sound tracks (if available)
  - This setting is not memorized and it will return to the default setting once you exit the current programme.

- **[Subtitle Language]** (DVB mode)
  - Allows you to select the language in which subtitles should appear (if available)
  - This setting is not memorized and it will return to the default setting once you exit the current programme.

- **[Teletext Character Set]** (DVB mode)
  - Sets the teletext language font
    - [Setup Menu] (p. 35)

- **[Teletext Language]** (DVB mode)
  - Allows you to select between alternative language for teletext (if available)

- **[NICAM]** (Analogue mode)
  - Switches NICAM sound (if available)
    - [Sound Menu] (p. 33)

- **[Volume Correction]**
  - Adjusts volume of individual channel or input mode

- **[Safely remove USB]**
  - Takes this operation to remove the connected USB device safely from the TV

**Off Timer**

Turn the TV off automatically after a fixed period (Off / 15 / 30 / 45 / 60 / 75 / 90 minutes)

1 Display the menu

**MENU**

2 Select [Timer]

3 Select [Off Timer] and set the time

- **Timer Programming**
  - **Off Timer**
    - 15 minutes
    - 30 minutes
    - 45 minutes
    - 60 minutes
    - 75 minutes
    - 90 minutes

- **Auto Standby**
  - OFF

- **[Teletext Language]** (Ireland only)
  - Sets the teletext character set

- **[Setup Menu]** (p. 35)

- **[Display Information banner]** (p. 18)

- To cancel ➔ Set to [Off] or turn the TV off.
- To display the remaining time ➔ “Display Information banner” (p. 18)
- When the remaining time is within 3 minutes, the remaining time will flash on the screen.
Aspect

Change the aspect ratio (image size)

Enjoy viewing the image at its optimum size and aspect. Programmes usually contain an “Aspect Control Signal” (Widescreen signal, etc.), and the TV will choose the aspect ratio automatically according to the “Aspect Control Signal” (p. 92).

If you would like to change the aspect ratio manually

1. Display Aspect Selection list
2. While the list is displayed, select the mode

- You can also change the mode only using the ASPECT button.
- (Press repeatedly until you reach the desired mode)

[Auto]
The best ratio is chosen and the image expanded to fill the screen. For details (p. 92)

[16:9]
Directly displays the image at 16:9 without distortion (anamorphic).

[Zoom1]
Displays a 16:9 letterbox or 4:3 image without distortion.

[14:9]
Displays the image at the standard 14:9 without distortion.

[Zoom2]
Displays a 16:9 letterbox (anamorphic) image full-screen without distortion.

[4:3]
Displays the image at the standard 4:3 without distortion.

[Zoom3]
Displays a 2.35:1 letterbox (anamorphic) image full-screen without distortion. At 16:9, displays the image at its maximum (with slight enlargement).

Note
- Aspect is fixed to [16:9] when [Viewing Mode] is set to [Game] in the Picture Menu.
- Only [16:9] and [4:3] are available in PC input mode.
- Not available in teletext service.
- Aspect mode can be memorized separately for SD (Standard definition) and HD (High definition) signals.

Display subtitles

DVB mode
Display / hide subtitles (if available)

- To change the language for DVB (if available)
- [Preferred Subtitles] (p. 35)

Analogue mode
Display subtitles

Note
- This is the same as switching to Analogue teletext service and selecting “P888” (subtitle service). (p. 26)
- You cannot change the channel when this function is active.

Display subtitles

To change the language for DVB (if available)

- [Preferred Subtitles] (p. 35)

Note
- This is the same as switching to Analogue teletext service and selecting “P888” (subtitle service). (p. 26)
- You cannot change the channel when this function is active.
Using TV Guide

TV Guide—Electronic Programme Guide (EPG) provides an on screen listing of the programmes currently broadcast and the forthcoming broadcasts over the next seven days (depending on the broadcasters).

• This TV supports the GUIDE Plus+ system. [UK only]
• The Rovi branding partner will supply the rating information in the programme information and the recommended group in the Search list. [UK only]
• DVB and Analogue channels are displayed on the same TV Guide screen. [D] means DVB channel and [A] means Analogue channel. There will be no programme listings for Analogue channels.
• When this TV is turned on for the first time, or the TV is switched off for more than a week, it may take some time before TV Guide is completely shown.

Select DVB or Analogue

1. Select DVB or Analogue
2. View TV Guide

View TV Guide

Example: UK

1. Current date and time
2. TV Guide time
3. Advertisement
4. [D]: DVB
   [A]: Analogue
5. Channel position and name
6. TV Guide date
7. Some programmes may also be broadcast in HD [UK only]
   * You can select HD or SD broadcast before viewing or setting Timer Programming.
8. Programme
9. Logo of the Rovi branding partner [UK only]

To change the layout of TV Guide ➔ [TV Guide View] (p. 34)

To watch the programme

1. Select a current programme or channel
2. Select [View] (DVB mode)

To the previous day (DVB mode)

To the next day (DVB mode)

View details of the programme (DVB mode)

1. Select the programme
2. View details

To view a channel list of the selected category

1. Select a channel list of the selected category

To list favourite channels ➔ (p. 42)
To search programme types and view a channel list of the searched programmes (DVB mode)

To search programme titles and view a list of the searched programmes (DVB mode) **UK only**

Other useful functions

**Timer Programming (DVB mode)**

Timer Programming is a timer to remind watching or record the programme to the external recorder or the USB HDD.

1. Select the forthcoming programme

2. Select the function ([Ext Rec.], [USB HDD Rec.] or [Reminder])

3. Start [Search] (green)

- All the programme titles including the word you set will be listed.
- Searching without any characters will list all programmes including current programmes.

To check / change / cancel a timer programming event

"Timer Programming" (p. 45)

If you select a current programme

A confirmation screen asking whether you wish to watch or record the programme will appear. Select [Timer Programming] and set [Ext Rec.] or [USB HDD Rec.] to record from the time you finish the timer programming event setting.

If a programme exists in both HD and SD broadcasts **UK only**

The [Timer Options] screen will be displayed to select HD or SD broadcast.

To return to TV Guide

To check / change / cancel a timer programming event

"Timer Programming" (p. 45)

If a programme exists in both HD and SD broadcasts **UK only**

The [Timer Options] screen will be displayed to select HD or SD broadcast.
Note

- This function is not available in Analogue mode.
- Timer Programming reminder messages will remain displayed until one of the following occurs:
  - You press the OK button to view the programme or the EXIT button to cancel the reminder.
  - The timer programming event that the reminder is set for ends.
- No other channel can be selected while the recording of Timer Programming is in progress.
- When recording programmes, be sure to make the proper settings on the recorder connected to the TV. \( \text{p. 45} \)
- When recording programmes to the USB HDD, be sure to format the USB HDD and enable it for recording in [Recording Setup] (p. 54).

Guide link programming (Timer Programming from the TV Guide signal)

Guide link programming is Timer Programming which is controlled by information from the TV Guide; if programme start and end times are changed by the broadcaster, the timer programming event will follow the change.

A Split Programme programming is a Guide link programming which is interrupted by one or more other programmes.

Note that Guide link programming (including Split Programme programming) only works reliably if correct information is received from broadcasters.

Example: [UK]

"S/P" is displayed if the timer is set from the TV Guide and the programme is a Split Programme

"Guide" is displayed if the timer is set from the TV Guide (Guide link programming)

Note

- If you edit the start time or end time of a Guide link programming event by more than 10 minutes, it will no longer follow the broadcaster's changes to the start or end time. The start and end times will become fixed.
- Whilst making the Split Programme programming event for [Ext Rec.] or [USB HDD Rec.], you cannot record any channels between the interrupted programmes.
- The Split Programme programming event for Reminder will be cleared by pressing the OK button once to view.
- The Split Programme programming event for Reminder will switch to the programmed channel by pressing the OK button even if it is between the interrupted programmes.
- The Split Programme programming does not work if the separated parts are broadcast on different channels.

View advertisement [UK only]

Enter your postcode when using this function for the first time

If you have already entered your postcode in "Auto Setup" - when first using the TV (p. 12 - 15), you do not have to enter it again. If you enter an incorrect postcode for your area, or no postcode is entered, advertisements may not be displayed correctly.

Display advertisement information

 OPTION

- To display the latest advertisement, you will need to update the information.
- To update the information continuously, the TV must be left in Standby mode.

To change advertisements

 OPTION or BACK/RETURN

Note

- Some advertisements are for future programmes.
- In this case it is possible to use the Guide link programming function.
- The advertisements displayed on the TV Guide are sent from the GUIDE Plus+ system so that they cannot be deleted manually or will not be lost even when the TV is turned Off with Mains power On / Off switch.
Viewing Teletext

You can enjoy news, weather forecasts and subtitles, etc. (depending on the broadcaster)

- The availability of teletext services for a programme is indicated by [TEXT] in the information banner.

![Image of teletext information banner]

- Information banner (p. 18)
- Displayed if programme has teletext service

**Ireland**

Depending on the broadcaster, the digital teletext (MHEG) services may not be available. In this case, the operation of the teletext services may be the same as the analogue teletext services (p. 24).

**Digital teletext (MHEG)**

Digital teletext services differ greatly from analogue teletext. When you switch to a digital teletext service, the images you see can contain graphics and text, laid out and controlled in a manner decided by the broadcaster.

![Diagram of teletext operation]

1. **Select DVB**
   - TV
2. **Switch to Teletext**
   - TEXT

- DVB programmes have digital teletext services (MHEG).

**How to operate services**

In all cases, it is possible to navigate the pages using buttons on the remote control, but because the commands available must apply to all manufacturers of digital equipment, some on screen commands may not correspond exactly to the remote control buttons.

- Select, go
- Symbol: 
  - Back key
  - Coloured characters
  - When options with numbers are displayed

**Note**

- As soon as you switch to a digital channel with links to a teletext service, software is downloaded in the background to enable the teletext function. This means that when switching to a digital channel, you should wait for approximately 5 seconds before pressing the TEXT button - this will allow the software to download. If you press the TEXT button before download is complete, it will be ignored and you will have to press the TEXT button again when the download is complete.
- While navigating digital teletext, you will find there is a short delay when moving between pages while the page downloads. There is often a prompt shown somewhere on the page (for example “Loading”) to let you know that this is happening.
Analogue teletext

Analogue teletext services are the text information provided by the broadcasters. The features may vary depending on the broadcasters.

What is FASTEXT (FLOF) mode?
In FASTEXT mode, four differently coloured subjects are situated at the bottom of the screen. To access more information about one of these subjects, press the appropriately coloured button. This facility enables fast access to information on the subjects shown.

What is List mode?
In List mode, four differently coloured page numbers are situated at the bottom of the screen. Each of these numbers can be altered and stored in the TV's memory. “Store frequently viewed pages” (p. 26)

To change mode  [Teletext] (p. 35)

Select Analogue

Switch to Teletext

Select the page

To return to TV

To adjust contrast

    - Select channel
- REC
  - Record
    - Start recording

How to change the code for the type of the equipment

Each type of the Panasonic equipment has its own remote control code. Please change the code according to the equipment you want to operate.

1. Set the position to “DVD/VCR”

2. Press and hold the remote control button during the following operations

<table>
<thead>
<tr>
<th>Type of the equipment</th>
<th>Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>DVD Recorder, DVD Player, Blu-ray Disc Disc theatre</td>
<td>70 (default)</td>
</tr>
<tr>
<td>Player theatre, Blu-ray Disc theatre</td>
<td>71</td>
</tr>
<tr>
<td>VCR</td>
<td>72</td>
</tr>
</tbody>
</table>

Note

- Confirm if the remote control works correctly after changing the code.
- The codes may be reset to default values if batteries are replaced.
- Some operations may not be possible on some equipment models.
How to Use VIERA TOOLS

You can access some special features easily by using the VIERA TOOLS function.

- For [VIERA Link Control] and [Pause Live TV] functions to operate correctly, ensure the connections and settings are completed.

[Media Server]*
➤ “Using DLNA® features” (p. 77)

* When two or more available devices are connected, a selection screen will be displayed.
Please select the correct description and access.

Note

- If the selected feature is not available, the demonstration to explain how to use it can be displayed. Press the OK button to view the demonstration after selecting the unavailable feature.
How to Use Menu Functions

Various menus allow you to make settings for the picture, sound, and other functions.

1 Display the menu
   - Displays the functions that can be set (varies according to the input signal)

2 Select the menu
   - To return to TV at any time
   - To return to the previous screen
   - To change menu pages

3 Select the item
   Example: [Picture Menu]

<table>
<thead>
<tr>
<th>Viewing Mode</th>
<th>Dynamic</th>
</tr>
</thead>
<tbody>
<tr>
<td>Contrast</td>
<td></td>
</tr>
<tr>
<td>Brightness</td>
<td></td>
</tr>
<tr>
<td>Colour</td>
<td></td>
</tr>
<tr>
<td>Sharpness</td>
<td></td>
</tr>
<tr>
<td>Tint</td>
<td></td>
</tr>
<tr>
<td>Colour Balance</td>
<td>Warm</td>
</tr>
<tr>
<td>Void Colour</td>
<td>Off</td>
</tr>
<tr>
<td>C.A.T.S.</td>
<td>Off</td>
</tr>
</tbody>
</table>

   - Choose from among alternatives
     - Colour Balance: Cool, Normal, Warm
   - Adjust using the slide bar
     - Sharpness
       - Moved

   - Go to the next screen
     - Child Lock: Access
     - Displays the next screen

   - Enter characters by free input menu
     You can enter names or numbers freely for some items.

<table>
<thead>
<tr>
<th>User Input</th>
<th>Set characters</th>
</tr>
</thead>
<tbody>
<tr>
<td>Name</td>
<td>Store</td>
</tr>
</tbody>
</table>

   - You can set characters by using numeric buttons.
     - “Characters table for numeric buttons” (p. 96)

Note
- If “Demo Settings” item is displayed in the Setup Menu, the TV is in “Shop” viewing environment.
- To return to “Home” viewing environment initialise all settings by accessing Shipping Condition. (p. 49)
### Menu list

</table>
|      | **Intelligent Frame Creation** | Automatically compensates the picture frame rate and removes juddering movements to make the images smooth [Off] / [Mid] / [Max]  
* Depending on the contents, images may be noisy. To prevent the noise, change the setting.  
* This function is not available for selection (default to [Off]) when [Viewing Mode] is set to [Game] or in the mode of PC input, photo or network service operations. |
|      | **24p Smooth Film** | Automatically compensates the picture frame rate to make the 24p source movie images smooth [Off] / [Mid] / [Max]  
* This is available only for 24p signal input and displayed instead of [Intelligent Frame Creation].  
* This function is not available for selection (default to [Off]) when [Viewing Mode] is set to [Game] or in the mode of PC input, photo or network service operations. |
|      | **Clear Cinema** | Automatically makes the film source movie images clear [Off] / [On]  
* This function is available for the interlaced signal. (except when [Viewing Mode] is set to [Game]) |
|      | **Resolution Enhancer** | Enhances the picture resolution to make the image sharper [Off] / [Mid] / [Max]  
* This function is available for SD (Standard definition) signal.  
* As for HD (High definition) signal, this function is available when aspect mode is set to [16:9] ([16:9 Overscan] is set to [On]), [4:3 Full] or [Zoom].  
* Not valid on Media Player and network service operations |
|      | **16:9 Overscan** | Selects the screen area displaying the image [Off] / [On]  
[On] : Enlarges the image to hide the edge of the image.  
[Off] : Displays the image in the original size.  
* Set to [On] if noise is generated on the edge of the screen.  
* This function is available when aspect is set to [Auto] (16:9 signal only) or [16:9].  
* This function can be memorized separately for SD (Standard definition) and HD (High definition) signals.  
* Not valid on PC and VIERA Connect |
|      | **DVI Input Setting** | Changes the black level in the image for HDMI input mode with DVI input signal manually [Normal] / [Full]  
* When the DVI input signal from the external equipment, especially from PC, is displayed, the black level may not be suitable. In this case, select [Full].  
* The black level for HDMI input signal will be adjusted automatically.  
* For HDMI input mode with DVI input signal only |
|      | **Reset to Defaults** | Press the OK button to reset the present Picture Viewing Mode to the default settings |
|      | **Mode** | Selects the basic sound mode [Music] / [Speech] / [User]  
* The selected mode affects all input signals.  
[Music] : Improves sound quality for watching music videos, etc.  
[Speech] : Improves sound quality for watching news, drama, etc.  
* In Music and Speech modes, you can adjust [Bass] and [Treble] settings, and those settings will be stored for each mode.  
[User] : Adjusts the sounds manually by using the equaliser to suit your favourite sound quality.  
* For the User mode, [Equaliser] will appear on the Sound Menu instead of [Bass] and [Treble]. Select the [Equaliser] and adjust the frequency. ➔ [Equaliser] (see below) |
|      | **Bass** | Increases or decreases level to enhance or minimise lower, deeper sound output |
|      | **Treble** | Increases or decreases level to enhance or minimise sharper, higher sound output |
|      | **Equaliser** | Adjusts the frequency level to suit your favourite sound quality  
* This function is available when [Mode] is set to [User].  
* Select the frequency and change the frequency level by using the cursor button.  
* If you want to enhance the bass sound, raise the level of the lower frequency. If you want to enhance the treble sound, raise the level of the higher frequency.  
* To reset the levels of each frequency to the default settings, select the [Reset to Defaults] by using the cursor button, and then press the OK button. |

</table>
| **Surround** | Surround sound settings [Off] / [V-Audio] / [V-Audio Surround]
[V-Audio] : Provides a dynamic enhancer of width to simulate improved spatial effects
[V-Audio Surround] : Provides a dynamic enhancer of width and depth to simulate improved spatial effects |
| **Auto Gain Control** | Adjusts the current volume level if it is extremely different from the previous viewed channel or input mode [Off] / [On] |
| **Volume Correction** | Adjusts the volume of individual channel or input mode |
| **Speaker Distance to Wall** | Adjusts the low frequency sound [Over 30cm] / [Up to 30cm]
• If the gap between the TV and wall is over 30 cm, [Over 30cm] is recommended.
• If the gap between the TV and wall is within 30 cm, [Up to 30cm] is recommended. |
| **Preferred Multi Audio** | Selects the preferred language for digital channel multi audio (depending on the broadcaster) [English] / [Welsh] / [Gaelic] / [Irish] |
| **NICAM** | Near Instantaneous Companded Audio Multiplex Reproduces NICAM stereo sound [Off] / [On]
• Off if reception is poor (FM monaural sound)
• Analogue mode only |
| **SPDIF Selection** | Selects the initial setting for digital audio output signal from DIGITAL AUDIO OUT and HDMI2 (ARC function) terminals [Auto] / [PCM]
[Auto] : Dolby Digital Plus, Dolby Digital and HE-AAC (48 kHz) multi-channel are output as Dolby Digital Bitstream. MPEG is output as PCM.
[PCM] : Digital output signal is fixed to PCM.
• For DVB mode, network video contents (p. 78) or Video mode of Media Player (p. 64)
• ARC (Audio Return Channel) : A function of digital audio output using HDMI cable |
| **HDMI1 / 2 / 3 / 4 Input** | Select to fit the input signal [Digital] / [Analogue] (p. 96)
[Digital] : When sound is carried via the HDMI cable connection
[Analogue] : When sound is not carried via the HDMI cable connection
• HDMI input mode only |
| **Audio Description** | Useful for visually-impaired viewers [Off] / [Auto]
Set to “Auto” to activate the description sound track if available
• The availability of audio description sound track is indicated by [AD] in the information banner (p. 18).
• DVB mode only |
| **Volume** | Adjusts the volume for Audio Description
• DVB mode only |
| **Speakers** | Set to [On] to activate the description sound track from TV speakers [Off] / [On]
• DVB mode only |
| **Headphones** | Set to [On] to activate the description sound track from headphones [Off] / [On]
• DVB mode only |
| **Reset to Defaults** | Press the OK button to reset the present Sound Mode, [Balance], [Headphone Volume] and [Surround] to the default settings |
## How to Use Menu Functions

### Menu Item Adjustments / Configurations (alternatives)

<table>
<thead>
<tr>
<th>Menu</th>
<th>Item</th>
<th>Adjustments / Configurations (alternatives)</th>

</thead>
</table>
| Timer | Timer Programming | Sets a timer to remind watching or record forthcoming programmes (p. 45)  
- DVB mode only |
| Timer | Off Timer | Sets the time until the TV automatically goes to Standby mode  
| Timer | Auto Standby | Sets the time the TV automatically goes to Standby mode when no operation is performed for the selected times [Off] / [2] / [4] (hours)  
- Starting Timer Programming automatically does not affect this function.  
- Automatic input switching with the connected equipment affects this function and time-count will be reset.  
- The notification message will appear 3 minutes before going to Standby mode. |
[Normal] : Default TV Guide screen  
[Full] : Displays channels and programmes full-screen without the operation guide  
[Info] : Displays details of the selected programme at the bottom without the operation guide |
| TV Guide Settings | GUIDE Plus+ Postcode | Sets your postcode to display advertisements in the GUIDE Plus+ system (p. 23)  
UK only |
| TV Guide Settings | GUIDE Plus+ Information | Displays the system information of the GUIDE Plus+ system  
UK only |
| Eco Navigation | Eco Navigation | Automatically sets the TV to the most suitable energy-saving mode  
- If you press the OK button, the following items are set as below :  
[C.A.T.S.], [VIERA Link], [Standby Power Save], [Power Save] ⇒ [On]  
[Intelligent Auto Standby] ⇒ [On (No reminder)]  
[Auto Standby] ⇒ [2 hours] |
| Recording Setup | Recording Setup | Formats the connected USB HDD and sets the condition (p. 54) |
| Setup | VIERA Link | Sets to use VIERA Link functions [Off] / [On] (p. 84) |
| Setup | HDMI Content Detection | Adjusts the picture settings according to the content type signal from the connected equipment via HDMI cable [Off] / [Auto]  
- This function is available if the connected equipment supports HDMI Content Type.  
- The content type information will be displayed for several seconds when this function works. |
| Setup | AV1 out | Chooses the signal to be transmitted from the TV to Q-Link [TV] / [AV2] / [Monitor]  
[Monitor] : Image displayed on screen  
- Component, PC and HDMI signals cannot be output. |
| Setup | Standby Power Save | Controls the power consumption in Standby mode of the connected equipment to reduce the consumption [Off] / [On] (p. 85)  
- This function is available when [VIERA Link] is set to [On]. |
| Setup | Intelligent Auto Standby | Makes non-watched or non-used connected equipment go into Standby mode to reduce the power consumption  
[Off] / [On (With reminder)] / [On (No reminder)] (p. 85)  
- This function is available when [VIERA Link] is set to [On]. |
| Setup | Q-Link Download | Downloads analogue channel information to a Q-Link compatible equipment connected to the TV |
| Setup | Child Lock | Locks a channel / AV input to prevent access to it (p. 47) |

- **10:46**

**End**
- **90 min.**

**Remaining Capacity**
- **500GB (50%)**

---

(p. 31, 32)

(p. 32)

(p. 32, 33)

(p. 34)
Retuning from Setup Menu

Automatically retune the channels received in the area.

- This function is available if channel tuning is already performed.
- Only the selected mode is retuned. All the previous tuning settings are erased.
- If Child Lock PIN number (p. 47) has been set, the PIN number is required.
- If tuning has not been done completely, refer to [Manual Tuning] (p. 41, 44)

**DVB or Analogue channels**

1. **Select DVB or Analogue**
   
2. **Display the menu**
   
3. **Select [Setup]**
   
4. **Select [DVB Tuning Menu] or [Analogue Tuning Menu]**
   
5. **Select [Auto Setup]**

Example:

- **DVB Tuning Menu**
  - **Auto Setup**

Example: **Analogue**

- **Analogue Auto Setup**
  - **Scan**

For Auto Setup, using the buttons on the side panel of the TV (p. 9)

1. Press repeatedly until [Auto Setup] appears
2. Access [Auto Setup]
3. Start [Auto Setup]

**Start Auto Setup** (Settings are made automatically)

Example: **DVB**

- **DVB Auto Setup**
  - All DVB tuning data will be erased

Example: **Analogue**

- **Analogue Auto Setup**
  - All analogue tuning data will be erased

- The analogue settings are downloaded to a Q-Link compatible equipment connected to the TV in Analogue mode.

When the operation is completed, the channel at the lowest position will be displayed.
You can sort DVB channels so that those with the best signal quality, or those for your preferred region, appear nearer the top of your Channel List.

Normally, you should select [Best signal quality (All Regions)].

If you choose to select your preferred region, you could find channels with a weaker signal appear nearer the top of your Channel List. If you have any image or sound problems, select [Best signal quality (All Regions)] instead.

Set DVB channel manually [Manual Tuning]

Normally use [Auto Setup] or [Update Channel List] to retune DVB channels. If tuning has not been done completely or for adjusting the direction of the aerial, use this function.

All channels found will be added to the Channel List.
Tuning and Editing Channels

List favourite DVB channels [Favourites Edit]

Create your favourite channel lists from various broadcasters (up to 4: [Favourites]1 to 4).
The DVB Favourites lists are available for switching in the Information banner (p. 18) and from [Category] in the TV Guide screen (p. 21).

1 Select a channel to list ([■]: Encrypted channel)

2 Add it to the Favourites list

■ To edit Favourites list

While the cursor is in the Favourites field to edit

- To delete a channel
  ① select
  ② delete

- To move the channel
  Select the new position or Select the turn Store (green)

- To name the Favourites
  Set characters (maximum: ten characters)

3 Store

Note

- Channel position numbers (known as logical channel numbers) can be swapped in Channel List.
  To swap the channel position number ➔ [Channel List] (p. 43)

Check DVB signal [Signal Condition]

Selects a channel and checks the DVB signal condition.

A good Signal Strength is not an indication of best signal for DVB reception.
Please use the Signal Quality indicator as follows:

[Signal Quality] :
- Green bar ➔ Good
- Yellow bar ➔ Poor
- Red bar ➔ Bad (Check the Terrestrial aerial)

Example :

DVB Signal Condition

These bars show the maximum signal value of the selected channel.

Display a notification message [New Channel Message]

Selects whether to give a notification message when a new DVB channel is found. [Off] / [On]

New channels found!
Press OK to update channel list.
Press EXIT to ignore.

- Selecting OK will perform [Update Channel List].
Skip unwanted DVB channels, Edit DVB Channels [Channel List]

You can hide unwanted DVB channels. The hidden channels cannot be displayed except in this function. Use this function to skip unwanted channels.

Select a channel and [reveal] / [hide]

You can hide unwanted DVB channels. The hidden channels cannot be displayed except in this function. Use this function to skip unwanted channels.

Select a channel and [reveal] / [hide]

To edit channels

You can also edit each channel in Channel List.

• To retune each channel
  (only for the revealed channels)

• To swap the channel position number (logical channel number)

Update DVB channel automatically [Update Channel List]

You can add new channels, delete removed channels, update channel name and position automatically to Channel List.

Example: UK

DVB Update Channel List

You can retune channels or skip unwanted channels, edit channels etc.

Select Analogue

Display the menu

Select [Setup]

Select [Analogue Tuning Menu]

Select one of the following functions

Channel List Access
Auto Setup Access
Manual Tuning Access

Tuning and Editing Channels
Skip unwanted Analogue channels, Edit Analogue channels [Channel List]

You can hide unwanted Analogue channels. The hidden channels cannot be displayed except in this function. Use this function to skip unwanted channels.

Select a channel and [reveal] / [hide]

1. Select the channel position
2. Select the channel
3. Search
4. Select [Store]
Timer Programming

Timer Programming from Menu

The Timer Programming menu allows you to choose programmes that you wish to remind watching or record to the external recorder or the USB HDD. At the correct time, the TV will tune to the correct channel automatically to record even if the TV is in Standby mode. TV Guide may also be used to set timer programming event (p. 22).

- Timer Programming can store up to 15 events.
- Timer Programming reminder messages will remain displayed until one of the following occurs:
  - You press the OK button to view the programme or the EXIT button to cancel the reminder.
  - The timer programming event that the reminder is set for ends.
- "!" identifies that any timer programming events have overlapped. [Ext Rec.] and [USB HDD Rec.] are given priority over [Reminder]. As for the overlapped two or more [Ext Rec.] / [USB HDD Rec.], the first timer programming event starts and finishes as programmed. The next timer programming event can then start.
- 2 minutes before the starting time, a reminder message appears if you are watching TV.

- To remove the message and start the programme
  - To cancel the Timer Programming

The recording of Timer Programming will automatically change to the programmed channel 10 seconds before the start time.
- To stop recording of the timer programming event, it may be necessary to stop the recorder manually.
- No recording of Timer Programming will be performed even if the TV is in Rewind LIVE TV recording (p. 57) or Pause Live TV recording (p. 86). In this case, these recordings will be cancelled.

1 Select the tuner you want to use (DVB or Analogue)

2 Display the menu

3 Select [Timer]

4 Select [Timer Programming]
Set timer programming event details [Timer Programming]

1 Start making the settings

2 Select the function ([Ext Rec.], [USB HDD Rec.] or [Reminder])

[Ext Rec.] / [USB HDD Rec.]: to record the programme to the external recorder or the USB HDD. When the start time comes, the channel will be switched automatically and the video and audio signals will be output. 2 minutes before the starting time, a reminder message appears if you are watching TV.

[Reminder]: to remind you to watch the programme. When you are watching TV, a reminder message appears 2 minutes before the start time. Press the OK button to switch to the programmed channel.

3 Set the channel, date and time (repeat the operations as below)

Set items in the order of 1 to 4.

- Channel number
- Information of the USB HDD (if available)
- Date
- Starting time
- Ending time
- Duration (automatic display)
- Records with subtitles (if available)
- To indicate this (yellow) (Press again to remove subtitles)
- To change this (red)
- To cancel (blue)
- To view details of the programming (only for Guide link programming) (UK only)

- To change a timer programming event
  Select the programme to be changed
  • Correct as necessary (as above)

- To record with subtitles (if available)
  Select the programme to record with subtitles
  • Each time pressed:
    - auto
    - off

- To view details of the programming (only for Guide link programming) (UK only)
  Select the programme to be viewed
  • Press again to return to Timer Programming menu.
Child Lock

You can lock specific channels / AV input terminals and control who watches them. When the locked channel / input is selected, a message appears; by entering the PIN number, you can watch it.

Display the menu

Control channel audience [Child Lock]

1. Enter the PIN number (4 digits)
   - Enter the PIN number twice at first setting.
   - Make a note of the PIN number in case you forget it.

2. Select [Child Lock List]
   - Change PIN
   - Child Lock List

3. Select the channel / input to be locked
   - Child Lock List - TV and AV
   - To change the PIN number
     1. Select [Change PIN]
     2. Enter a new PIN number twice

- To set Parental Rating  [Ireland only]
  If the DVB programme has the rated information for over the selected age, you have to enter the PIN number to watch (depending on the broadcaster).
  Select [Parental Rating] and set an age for the restriction of programmes.

Note
- Setting [Shipping Condition] (p. 49) erases the PIN number and all settings.
Input Labels

For easier identification and selection of the input mode, you can label each input mode or skip terminals that are not connected to any equipment.

To select the input mode  (p. 27)

1 Display the menu

2 Select [Setup]

3 Select [Display Settings]

4 Select [Input Labels]

5 Select an input terminal

■ User input

You can name each input mode yourself.

1 Select [User input]

2 Set characters (maximum: ten characters)

3 Store

To use numeric buttons

“Characters table for numeric buttons” (p. 96)
Shipping Condition

Resets the TV to its original condition with no channels tuned in.
All settings other than [Owner ID] and [USB HDD Setup] are reset (channels, picture, sound settings, etc.).
• To retune TV channels only, e.g. after moving house » “Retuning from Setup Menu” (p. 40)

1 Display the menu
MENU

2 Select [Setup]

3 Select [System Menu]

4 Select [Shipping Condition]

Restore Settings [Shipping Condition]

1 Check the message and initialise
Shipping Condition
All tuning data will be erased
Are you sure ?
Are you sure ?

2 Follow the on screen instructions
Reset to Factory Shipping Condition Completed.
Please switch off TV.

• [Auto Setup] will automatically start when Mains power On / Off switch is next turned On. (p. 12)
Owner ID

Entry of the PIN number and personal information (your name, address and postcode).
In the unfortunate event of theft, the Owner ID will help the Police to determine the owner.

1 Display the menu
   MENU

2 Select [Setup]

3 Select [System Menu]

4 Select [Owner ID]

To return to TV
EXIT

1 Enter the PIN number (4 digits)
   Owner ID
   Please enter new PIN
   PIN: * * * *

2 Select the item (NAME / HOUSE NO / POSTCODE) and set characters

3 Exit the menu
   EXIT

To check the personal information stored
   Hold down for about 6 seconds
   F

To change the PIN number
   1. Select [PIN]

   2. Enter a new PIN number twice

   • Enter the PIN number twice at first setting.
   • Make a note of the PIN number in case you forget it. The PIN number cannot be reset.

   • Select the next item and repeat the operations.

   • To use numeric buttons ➔ “Characters table for numeric buttons” (p. 96)
Using Common Interface

The Common Interface Module menu provides access to software contained on Common Interface (CI) Modules. This TV works only for Pay TV modules complying with CI standard.

- This function is not available for BskyB’s Sky channels.
- Video and audio signals may not be output depending on broadcasts or services.

**Caution**

- Turn Off Mains power On / Off switch whenever inserting or removing the CI module.
- If a viewing card and a card reader come as a set, first insert the card reader, then insert the viewing card into the card reader.
- Insert the module in the correct direction.

**Insert the CI module (optional)**

- The features that appear on screen are dependent on the contents of the selected CI module.
- Follow the instructions that came with the viewing card to tune in the encrypted channels. If encrypted channels do not appear, perform the below to verify the card is recognised by the TV.
- For more details, see the manual of the CI module, or check with the broadcaster.

**How to operate services by following the on screen operation guide**

(Check the instructions provided with the CI module.)

*Example:

- Select, go
- Symbol : ◀▶▼
- Coloured characters
  - Coloured button

*On screen operation guide may not correspond to the remote control buttons.*
Updating the TV Software

From time to time, a new version of software may become available for download to enhance the performance or operations of the TV.

In DVB mode, a notification banner will appear when one of the BBC channels is turned to if a new available software is found.

- **To download**
- **If you choose not to download**

You can update any new software automatically or manually.

1. **Display the menu**
   - Press **MENU**

2. **Select [Setup]**
   - **Main Menu**
   - **Picture**
   - **Sound**
   - **Timer**
   - **Setup**

3. **Select [System Menu]**
   - **System Menu**
   - **Access**
   - **Other Settings**

4. **Select [System Update]**
   - **USB Keyboard Layout**
   - **Shipping Condition**
   - **Owner ID**
   - **Common Interface**
   - **System Update**
   - **Software Licence**
   - **System Information**

**Update TV’s software system [System Update]**

1. **To update automatically**
   - Select [Auto Update Search in Standby] and set to [On]

2. **To update immediately**
   - **Select [System Update Search Now]**

   **System Update**
   - **System Update Search Now**
   - **Access**

3. **Download**

   - **Searches for an update (for several minutes) and displays a corresponding message if any**

   **Note**

   - Download may take up to 60 minutes.
   - During software download and update, DO NOT perform any operations on the TV or switch Off the TV.
Displaying PC Screen on TV

The screen of the PC connected to the TV can be displayed on the TV. You can also listen to PC sound with the audio cable connected.

*To connect PC (p. 90)

1. Select the external input
   - AV

2. Select [PC]

   - Input Selection
     - AV1
     - AV2
     - COMPONENT
     - PC
     - HDMI1
     - HDMI2
     - HDMI3
     - HDMI4
     - TV
     - SD Card/USB

   - (1) select
   - (2) access

   * Corresponding signals (p. 98)
   * If [H-freq.] or [V-freq.] is shown in red, the signals may not be supported.

PC menu setting

*To make settings "How to Use Menu Functions" (p. 30)

* Other items (p. 31 - 36)

( Note )

* For HDMI-compatible PC, possible to connect to HDMI terminals (HDMI1 / HDMI2 / HDMI3 / HDMI4) by using HDMI cable (p. 96).
USB HDD Recording

You can record the digital TV programmes to the connected USB HDD and enjoy playing back in various ways.

- Analogue TV programme cannot be recorded to the USB HDD.
- The data broadcasting (MHEG, etc.), radio broadcasting and the periods without any signal will not be recorded.
- Not all the programmes can be recorded depending on the broadcaster and service provider.
- For more information of the USB HDD (p. 95)

Caution

- All data in the USB HDD will be erased in the following cases:
  - When formatting the USB HDD with the TV “Setting for USB HDD” (see below)
  - When formatting the USB HDD to use on PC
  - When the TV is repaired due to a malfunction, you may have to format the USB HDD again with the TV to use it. (All data will be erased when formatting.)
  - In order to use the USB HDD with your PC after recording with this TV, format it again on your PC. (You cannot format it with the format function in the OS of Windows XP.)
  - The data recorded to the USB HDD with this TV can only be played back on this TV. You cannot play back its contents with another TV (including the TV of the same model number) or any PCs.

USB HDD connection

Connect the USB HDD to the USB 1 port.

socket outlet

USB HDD

USB cable

- Be sure to connect the USB HDD to the socket outlet.
- Do not turn off or disconnect the USB HDD during operation. It may cause malfunction of the drive or damage the recorded data.
- To remove the USB HDD safely from the TV (p. 19, 55)

Setting for USB HDD

Format and setup the USB HDD with this TV in order to use it for recording.

- Before the settings, connect the USB HDD (see above) and be sure to turn on the USB HDD.
- You cannot change the settings for the USB HDD while recording is in progress.
- Please note that USB HDD will be formatted and all data in it will be erased when you format it.

1 Display the menu

MENU

2 Select [Setup]

Main Menu

Picture

Sound

Timer

Setup

3 Select [Recording Setup]

Recording Setup Access

4 Select [USB HDD Setup] and set

Recording Setup Access

USB HDD Setup Access

One Touch Recording 180 minutes

Rewind LIVE TV Off
Setup the USB HDD [USB HDD Setup]

All the USB devices recognised as a mass storage device will be listed.

1 Select the USB HDD for recording and start setup

- Some USB HDD may not be displayed.
- For the information of the highlighted device

2 Caution and confirmation of using USB HDD

Select [Yes] to proceed

- The data recorded to the USB HDD with this TV can only be played back on this TV.
- You cannot playback it with other TV (including the TV of the same model number) or any PCs.
- If your TV is repaired due to a malfunction, the USB HDD may not be available with your repaired TV.

3 Confirmation of USB HDD name

The name for the USB HDD is created automatically. If you want to edit the name, select [Yes].

4 Confirmation to enable USB HDD for recording

If the formatted USB HDD for recording already exists, this confirmation screen will be displayed to switch to enable this USB HDD for recording.

USB HDD name is displayed

- To remove the USB HDD safely from the TV (yellow)
- To format (red)
- To edit USB HDD name (green)

To set “Safely remove USB” in other conditions (p. 19)
Recording the TV programme to USB HDD

You can record the current programme immediately by using [One Touch Recording].
You can also record the current programme constantly for the selected period by using [Rewind LIVE TV] so that you can go back or pause the current programme.
- Ensure the connection and setup are completed before start recording (p. 54, 55)
- Ensure not to connect or disconnect any USB devices during USB HDD recording. Otherwise the recording may not work properly.
- If the remaining capacity of the USB HDD is run out, the recording cannot be done.

1 Display the menu

2 Select [Setup]

3 Select [Recording Setup]

4 Select [One Touch Recording] or [Rewind LIVE TV]

One touch direct TV recording - What you see is What you record

[One Touch Recording]

Recording the current programme in the USB HDD immediately.
Select the maximum recording time
To start One Touch Recording
Set the position to “TV”

No other channel can be selected while the recording is in progress.

To stop recording on the way

No other channel can be selected while the recording is in progress.

To playback or delete the recorded contents  “Recorded TV mode” (p. 65)
Even if One Touch Recording is in progress, you can playback all the contents. However, the recording may not work properly while playback.

Record constantly [Rewind LIVE TV]
Recording the current programme constantly.
Select [Auto] to start Rewind LIVE TV

Auto

When you select [Auto], the recording will start automatically.

To operate the Rewind LIVE TV
Set the position to “TV”

To pause

To search backward (up to 90 minutes)

(Press and hold)

After pausing or searching backward, the following buttons are available to operate.

search backward
playback / pause
search forward
stop (stops the current operation and goes back to live TV)

To stop the Rewind LIVE TV

If you stop the Rewind LIVE TV, the recorded content for the Rewind LIVE TV will be deleted.

Rewind LIVE TV will be stopped and the recorded content deleted automatically in the following conditions:
- selected other channels
- selected locked channel
- selected invalid channel
- no TV signal
- when the other recording starts
- when the TV is turned off or standby
Using Media Player

Media Player allows you to enjoy photo, video or music recorded on an SD Card and a USB Flash Memory, and recorded contents on the formatted USB HDD.

VIERA IMAGE VIEWER is the function of the easy viewing for photos or videos recorded on an SD Card on the TV screen by simply inserting into the SD Card slot.

Photo mode : Still pictures recorded by digital cameras will be displayed.
Video mode : (For SD Card or USB Flash Memory) Moving pictures recorded by digital video cameras will be played back.
Recorded TV mode : (For USB HDD) TV programmes recorded in USB HDD with this TV will be played back.
Music mode : Digital music data will be played back.

During the operation, audio signal is output from AV1, AUDIO OUT, DIGITAL AUDIO OUT and HDMI2 (ARC function) terminals.
But no video signals are output. AV1 can output audio signal if [AV1 out] is set to [Monitor] in the Setup Menu (p. 34). To use HDMI2 with ARC function, connect an amplifier that has ARC function (p. 82) and set to use theatre speakers (p. 88).

(Date) shows the date on which the recording was made by the recording equipment. The file without record of the date is shown ***/**/***.

The picture may not appear correctly on this TV depending on the recording equipment used.
Display may take some time when there are many files and folders.
Partly degraded files might be displayed at a reduced resolution.
The folder and file names may be different depending on the digital camera or digital video camera used.

To insert or remove the SD Card / USB Flash Memory

For the USB HDD Connection  ➔ (p. 54)

■ USB Flash Memory

- Insert or remove straightly and completely.
- Before removing the USB Flash Memory, ensure to perform “Safely remove USB” (p. 19).
- Connect to the USB 1, 2 or 3 port.

■ SD Card

To insert the SD Card

1. Gently insert the SD Card label surface facing front.
2. Push until a click is heard

To remove the SD Card

Push the centre of the card

For the information of the devices ➔ “Devices for recording or playing back” (p. 95)
For the supported file format ➔ “Supported file format in Media Player and media servers” (p. 93, 94)
Starting Media Player

1 Insert the SD Card or USB Flash Memory to the TV

To play back contents in USB HDD, check the connection and settings are completed.

2 Start Media Player

Signal output from all AV terminals will be disabled during Media Player view.

Press OK to proceed.
Press EXIT to return to TV viewing.

Also possible by pressing following buttons.
SD CARD
AV

“Watching External Inputs” (p. 27)

3 Select the device you want to access to

If two or more devices are not connected, this step will be skipped.

4 Select the content

You can also access each mode directly by using VIERA TOOLS.

“How to Use VIERA TOOLS” (p. 29)
For formatted USB HDD, this step will be skipped and recorded contents list will be displayed. (p. 65)
Photo mode

Photo mode will read all "jpg" extension files in the SD Card or USB Flash Memory.

The thumbnail of all the photos in the SD Card or USB Flash Memory will be displayed. Example: Thumbnail - [All photos]

To change the background music ⇒ "Photo Settings" (p. 61)
To display the information of the highlighted photo

To change the size of photos on a thumbnail screen display

To sort by folder, recorded date or recorded month

1 Display the view selection
   [Folder view]: Displays the thumbnail grouped by folder
   * The files which are not into a folder will be collected to the folder named "/".

   [Sort by Date]: Displays the thumbnail grouped by the same date
   * The group of the photos without recorded date is shown as [Unknown].

   [Sort by Month]: Displays the thumbnail grouped by the same month
   * The group of the photos without recorded date is shown as [Unknown].

2 Select the sort type
   Select one of the sorted groups to display the thumbnail of the selected group

3 To sort by folder, recorded date or recorded month

Using Media Player

■ To return to TV
   EXIT or SD CARD

■ To return to the previous screen
   BACK/RETURN

<tr>
<td>[User] : Music data in the device registered by yourself will be played back.</td>
<td></td>
</tr>
</tbody>
</table>

#### To register the music

1. Select the music file
2. Select [File] or [Folder]

![Register Slideshow BGM?](image)

- [File] : The selected music file will be registered as back ground music.
- [Folder] : All the music in the folder which contains the selected music file will be registered as back ground music.

- If no music has been registered or the device which has the registered music is removed, no sound will be produced.

- [Auto] : Music data stored in the root folder of the current device will be played back randomly.

- If there is no available music data, no sound will be produced.

### Change the device

You can change to the other device directly in the same mode if two or more devices are connected.

1. While the thumbnail is displayed, display the device selection

   ![Device Selection](image)

   (yellow)

2. Select the device you want to access to

   ![Device Selection](image)

   Selected device name

### Change the contents

You can switch to the other mode of Media Player from the thumbnail view.

- The mode can be switched in the current device.

1. While the thumbnail is displayed, display the contents selection

   ![Contents Selection](image)

   (blue)

2. Select the contents

   ![Contents Selection](image)

   [Photo] ⇒ “Photo mode” (p. 60)  
   [Video] ⇒ “Video mode” (p. 64)  
   [Music] ⇒ “Music mode” (p. 68)  
   [Recorded TV] ⇒ “Recorded TV mode” (p. 65)
Video and Recorded TV mode

• Supported file format (p. 93)

Video mode

(For SD Card or USB Flash Memory)

The thumbnail of video titles in the SD Card or USB Flash Memory will be displayed.

Example : Thumbnail - [Title view]

The preview will start when the title is highlighted if it supports a preview.

• To turn off the preview “Video Setup” (p. 67)

• To display the information of the highlighted title

Example : Thumbnail - [Scene view]

The preview will start when the scene is highlighted if it supports a preview.

• To turn off the preview “Video Setup” (p. 67)

• To display the information of the highlighted scene

Playback from Title view

Playback of the selected title will start.

To repeat playback “Video Setup” (p. 67)

1 Select the title
2 Start playback

Playback from the selected scene in the title (SD-Video or AVCHD)

Playback will start from the selected scene to the end of the title.

To repeat playback “Video Setup” (p. 67)

1 Select the title
2 Select the scene
3 Start playback

Note

• The structure of titles and scenes may vary depending on the digital video camera used.
**How to operate in the playback**

Example: Playback

- To display / hide the operation guide and information banner
- To operate the playback
  - Rewind
  - Pause / Playback
  - Fast forward
  - Stop

You can also use the following buttons. (p. 28)
Set the position to “TV”

![Media Player interface](image)

- **Operation guide**
- **Information banner**

- **To change the device** “Change the device” (p. 63)
- **To change the content in the current device** “Change the contents” (p. 63)

**Recorded TV mode**

(For USB HDD)

Contents list of the USB HDD will be displayed.

Example: Contents list

![Contents list](image)

- [All]: All the recorded contents are listed.
- [Not Viewed]: Contents not played back are listed.

- : Content not played back (Once you playback the content, this icon will disappear.)
- : Content under recording (You can playback this content even if under recording.)
- : Protected content cannot be deleted.
- : Two or more contents are grouped.

**Playback the content from the list**

1. Select the content
2. Start playback

**To edit recording content [Create Group] / [Release Group] / [Change Protect Status]**

1. Select and tick the content to edit
2. Display the option menu
3. Select the item and edit

| Option Menu |
|------------------|------------------|
| Create Group |
| Release Group |
| Drive Select |
| Contents Select |
| Change Protect Status |

![Option menu](image)
Delete the selected content

1 Select the content
- select
- To select two or more contents

2 Delete the content
- (red)

3 Confirm

Delete
Are you sure you want to delete?
Yes No

How to operate in the playback

Example: Playback

- To display / hide the operation guide and information banner
- To display / hide the operation guide and information banner

To operate the playback
- Rewind
- [Manual skip]
  - Press to skip forward about 30 seconds
  - Press and hold to skip backward about 15 seconds
- Pause / Playback
- Fast forward
- Stop

- To repeat between the starting point “A” and finishing point “B”
  Set “A” and “B” in order
  - The points will be reset by pressing this button again or other operations.

- To change aspect
  - ASPECT (red)
  - STTL (blue)

  You can also use the following buttons. (p. 28)
  Set the position to “TV”
  - DVD/VCR TV

  - To confirm or change the current status (if available) “Display the selectable settings for the current status” (p. 19)

Chapter List

You can start playback from the chapter list you select.
- A recorded content is automatically divided into five-minute chapters.
- The chapter list is not displayed while the selected content is being recorded.
To play back from the chapter list

- (yellow)

Note
- Depending on the recorded programmes, some playback operations may not work properly.

To change the device “Change the device” (p. 63)
To change the content in the current device “Change the contents” (p. 63)
**Audio output Settings**

You can enjoy the multi-channel sound via an amplifier connected to DIGITAL AUDIO OUT or HDMI2 (ARC function) terminal. *To confirm or change the current sound status “Confirm or change the current status” (p. 68)*

1. Display the menu
2. Select [Sound]
3. Select [SPDIF Selection] and set

Menu | Item | Adjustments / Configurations (alternatives)
---|---|---
**Sound**<br>SPDIF Selection<br>SPDIF : A standard audio transfer file format<br>Selects the initial setting for digital audio output signal from DIGITAL AUDIO OUT and HDMI2 (ARC function) terminals [Auto] / [PCM]<br>[Auto] : Dolby Digital Plus, Dolby Digital and HE-AAC (48 kHz) multi-channel are output as Dolby Digital Bitstream.<br>DTS is output as DTS.<br>MPEG is output as PCM.<br>[PCM] : Digital output signal is fixed to PCM.

**Video Setup**

Setup the settings for Video mode. *These settings are not available for the formatted USB HDD.*

1. Display the option menu in the thumbnail view
2. Select [Video Setup]
3. Select the items and set

Menu | Item | Adjustments / Configurations (alternatives)
---|---|---
**Video Setup**<br>Video Preview<br>Repeat<br>Video Preview: Sets to start the preview of the title or scene in the thumbnail view [Off] / [On]. *Image may not be displayed for an instant in the thumbnail view. Set the preview [Off] to resolve this.*
Repeat: Playback repeat within the title or selected file (depending on the content) [Off] / [On]
Confirm or change the current status

You can confirm or change the current status of the content.

- Menu items and selectable options vary depending on the content.

1 Display the option menu during playback

2 Select [Video Setup]

3 Select the items and set

Using Network Services (DLNA / VIERA Connect)

DLNA®
This TV is a DLNA Certified™ product.
DLNA (Digital Living Network Alliance) is a standard that makes DLNA Certified digital electronics easier and more convenient to use on a home network. To learn more, visit www.dlna.org.
It allows you to share photos, videos and music stored in the DLNA Certified media server (for example, PC with windows 7 installed, DIGA Recorder etc.) connected to your home network, and enjoy the contents on the TV screen.
- For the supported file format ⇒ (p. 93, 94)
- AVCHD and DivX files are not supported by DLNA, but can be played by Media Player (p. 58).

■ Media server
Store photos, videos or music into the DLNA Certified media server, and then you can enjoy them on the TV.

To use a PC as a media server
Prepare the PC with Windows 7 or ensure the server software is installed on the PC.
“Windows 7” and “TwonkyMedia server 6 (installed on the PC with Windows 7, Windows Vista or Windows XP)” are the server software that has been tested for compatibility with this TV (current as of January, 2011). Any other server software have not been tested with this TV, therefore compatibility and performance cannot be assured.
- Windows 7
  The setup for homegroup settings of Windows 7 is required. For details, refer to the help functions of Windows 7.
- TwonkyMedia server
  “TwonkyMedia server” is the product of PacketVideo Corporation.
  To obtain the Installation Guides for installing and setting “TwonkyMedia server”, visit the website of TwonkyMedia.
  Additional fees may be charged to obtain server software.

  Note
- For more information about the server software, please consult each software company.
- When server software for the media server is installed on the PC, the data may be at risk of being accessed by other people. Please take care of the settings and connections under the network circumstances at the office, hotel or even at home when not using a router.

To use a DLNA compatible DIGA Recorder as a media server
By connecting a DLNA compatible DIGA Recorder to your home network, you can enjoy and control it as one of the media servers.
- Please refer to the manual of your DIGA Recorder to confirm whether the recorder is compatible with DLNA.

■ DLNA Remote Control
This TV supports the DLNA control function.
- To use this function, set the [Network Link Settings] ⇒ (p. 72)
- “Windows 7” is the OS that has been tested for compatibility of this TV (current as of January, 2011). For the operations, refer to the help functions of Windows 7.

Network connection ⇒ “Example 1” or “Example 2” in “Network connections” (p. 71)
Network setup ⇒ (p. 72 - 76)
DLNA operations ⇒ (p. 77 - 80)

VIERA Connect
You can access a selection of internet services from VIERA Connect home screen. For example, YouTube, Picasa Web Albums (current as of January, 2011).

Network connection ⇒ “Example 1” or “Example 3” in “Network connections” (p. 71)
Network setup ⇒ (p. 72 - 76)
VIERA Connect operations ⇒ (p. 16, 80)
To use only DLNA features, you can operate the features without broadband network environment. To use VIERA Connect features, you need a broadband network environment.

• If you do not have any broadband network services, please consult your retailer for assistance.
• Set up and connect any equipment required for the network environment. You cannot make settings for the equipment on this TV. Read the manual of the equipment.
• Required speed (effective): at least 1.5 Mbps for SD and 6 Mbps for HD picture quality, respectively. If the transfer speed is not enough, contents may not be played back properly.

Example 1
(For DLNA and VIERA Connect)

- Ensure to use a LAN straight cable for this connection.
- If your modem has no broadband router functions, use a broadband router.
- If your modem has broadband router functions but there are no vacant ports, use a hub.
- Ensure that the broadband routers and hubs are compatible with 10BASE-T / 100BASE-TX.
- If you use the equipment compatible only with 100BASE-TX, category 5 LAN cables are required.

Example 2
(For DLNA)

You can connect the TV and the equipment directly to use DLNA features.

- Ensure to use a LAN cross cable for this connection.

Example 3
(For VIERA Connect)

You can connect the TV and the telecommunication equipment directly to use VIERA Connect features.

Note

• Contact your Internet Service Provider (ISP) telecommunications company for further assistance regarding the network equipment.
• Confirm the terms and conditions of the contracts with your Internet Service Provider (ISP) or telecommunications company. Depending on the contracts, additional fees may be charged or multiple connections to the internet may be impossible.
Using Network Services (DLNA / VIERA Connect)

Network Setup

Ensure the connections are completed before starting Network Setup. ⇒ “Network connections” (p. 71)

Display the menu

1. Display the menu

2. Select [Setup]

3. Select [Network Setup]

Network Link settings

Sets the link settings to control this TV from the network equipment via the network.

1 Select [Network Link Settings]

2 Select the items and set

Menu | Item | Adjustments / Configurations (alternatives)
--- | --- | ---
Network Setup | Connection Test | 
Network Type | Wired | 
Access Point Settings | 
IP/DNS Settings | 
Network Link Settings | Access | 
Software Update | 
MAC Address | ab-cd-ef-gh-ij-kl | 

VIERA Name
Sets your favourite name for this TV and this name will be used to display the name of this TV on the screen of the other DLNA compatible equipment.

DLNA Remote Control
Enables to control the TV using Windows 7 via the network [Off] / [On]

DLNA Remote Volume
Enables to control the volume of the TV using Windows 7 via the network [Off] / [On]

Network Remote Control
Enables to control the TV from the network equipment (Smartphone, etc.) [Off] / [On]
- Depending on the area, this function may not be available. For details, consult your local Panasonic dealer.
- For more information of this function, visit the following website. (English only) http://panasonic.jp/support/global/cs/tv/
**Wired connection settings**

This setting is for the network connection by using the LAN cable.

1. **Select [Network Type] and set to [Wired]**

   - Connection Test
   - Network Type
     - Wired
   - Access Point Settings
   - IP/DNS Settings
   - Network Link Settings
   - Software Update
   - MAC Address: ab-cd-ef-gh-ij-kl

   If you make the network connection like “Example 2” (p. 71), you do not have to set [Acquire DNS Address], [Proxy] and [Proxy Port].

2. **Select [IP/DNS Settings] and set the items**

   - [Acquire IP Address] / [Acquire DNS Address]

     Sets [IP Address], [Subnet Mask], [Gateway], [Primary DNS] and [Secondary DNS].
     Select [Acquire IP Address] / [Acquire DNS Address] and set to [Auto] (recommended)

     - The available settings are displayed automatically.

3. **Select [Proxy Settings] and set the items**

   - [Proxy]

     Sets Proxy address.
     * This is the address of the relay server that is connected to the target server instead of the browser and sends data to the browser. Setting is required if specified by the provider.

   1. Select [Proxy]

4. **Select [Proxy Port]**

   Sets Proxy port number.
   * This number is also specified by the provider with the Proxy address.

   1. Select [Proxy Port]
4 Select [Connection Test] and access to test

<table>
<thead>
<tr>
<th>Network Setup</th>
</tr>
</thead>
<tbody>
<tr>
<td>Connection Test</td>
</tr>
<tr>
<td>Network Type</td>

</tbody>
</table>

- - - : [Wired] is selected in [Network Type].
- [No adaptor] : Wireless LAN Adaptor is not connected.
- [No settings] : Setting for connecting to the access point has not been set.
- [Connecting...] : Connecting to the access point in progress.
- [Connected] : Wireless connection to the access point succeeded

- To display the current access point settings, press the OK button.
- To change the settings, select [No] on this screen.
- Some access points do not allow access to the internet.
- Perform [Connection Test] (p. 75) to check if internet connection is available.

[USB overcurrent] : Overcurrent error ➤ (p. 102)
5 Select [Connection Test] and access to test

Perform automatic testing of the network connection for the TV. (It takes a while to test.)

- : succeeded
  The test is successful and the TV is connected to the network.
- : failed
  Check the settings and connections, and then perform this function again. If you continue to have difficulty, please contact your internet service provider.

■ [WPS(Push button)]

1) Please press the 'WPS' button on the access point until its light flashes.
2) When the light is flashing select 'Connect' on TV.
If you are unsure, please check the instruction manual of the access point.

- Connect

■ [WPS(PIN)]

1 Select your desired access point

- To search access points again
- For the information of the highlighted access point
- To set manually

2 Enter the PIN code to the access point, and then select [Connect]

- Connect

■ [Search for access point]

Access points found automatically are listed.

1 Select your desired access point

- To search access points again
- For the information of the highlighted access point
- To set manually
2 Access the encryption key input mode

Encryption Key Setting
Connection will be made with the following settings:
SSID : Access Point A
Authentication type : WPA-PSK
Encryption type : TKIP
Please input the encryption key.

Encryption key

- If the selected access point is not encrypted, the confirmation screen will be displayed. It is recommended to select the encrypted access point.

3 Enter the encryption key of the access point (Set characters one by one)

Access Point Settings
Encryption key

- To use numeric buttons
  “Characters table for numeric buttons”
  (p. 96)

4 Select [Yes]

Access Point Settings
Encryption key is set to:-
XXXXXXXXX
Select ‘Yes’ to confirm.
Select ‘No’ to change.

Yes

- To re-enter the encryption key, select [No].

[Manual]
You can setup SSID, authentication type, encryption type, and encryption key manually. Follow the on screen instructions and set manually.

- When you use 11n (5 GHz) for the wireless system between the Wireless LAN Adaptor and access point, please select [AES] for the encryption type.

Access Point Settings
Please input the SSID.
SSID

- MAC address is a unique address that identifies hardware in the network.
  (for information only)

Update TV’s software

Accesses the specific website to update TV’s software and search if any software updates are available.

Select [Software Update]

Network Setup
Connection Test
Network Type
Access Point Settings
IP/DNS Settings
Network Link Settings
Software Update
MAC Address

- Follow the on screen instructions
Using DLNA® features

- Ensure the preparation of media server, network connections and network settings are completed.
  - “Media server” (p. 70), “Network connections” (p. 71), [Network Setup] (p. 72 - 76)

1. Display icons of the feature

2. Select [Media Server]

3. Select one of the media servers you want to access

   Example : Media server list

   Available media servers
   Total listed number

4. Select the file

   Example : File list

   Note
   - Non-playable files are also listed but cannot be selected.
   - Turn the TV off, and then on again when changing or reconnecting the network connection.
For photo file

[**Single view**] - Photos are displayed one at a time.

Example:

- To display / hide the operation guide
- To operate Single view
- To the previous photo
- To the next photo
- Slideshow
- Stop
- (return to list)

[**Slideshow**] - Slideshow will complete when all photos have been viewed within the list.

1 Select the photo file from the list for the first view
2 Start Slideshow

- To display / hide the operation guide
- To pause (return to Single view)
- To return to list
- BACK/RETURN

For video file

**Playback** - Playback will start.

Example: Playback

- To display / hide the operation guide and information banner
- To the previous content
- To the next content
- To change aspect
- To operate the playback
- [Manual skip]
- Press to skip forward about 30 seconds
- Press and hold to skip backward about 15 seconds
- Pause / Playback
- Fast forward
- Stop
- (green)
- (blue)
- (red)
- (red)
- BACK/RETURN

For music file

**Playback** - Playback will start

Example: Playback

- To display / hide the operation guide
- To operate the playback
- Rewind
- Pause / Playback
- Fast forward
- Stop
- (red)
- (green)
- BACK/RETURN

- To the previous track
- To the next track
- To return to list
For DIGA Recorder

Control the DIGA Recorder

The screen of the DIGA Recorder will be displayed. You can control the functions of the DIGA Recorder with this TV remote control according to the operation guide.

Example:

- Before operating, register this TV on the DIGA Recorder.
- For details, read the manual of the DIGA Recorder.

Option menu for each content

Setup the settings for Photo and Video file operations.

1 Display the option menu

2 Select [Slideshow Settings], [Video Setup] or [Music Setup]

3 Select the items and set

Audio output settings (for video contents)

You can enjoy the multi-channel sound via an amplifier connected to DIGITAL AUDIO OUT or HDMI2 (ARC function) terminal.

To confirm or change the current sound status ➔ "Confirm or change the current status" (p. 68)

1 Display the menu

MENU

2 Select [Sound]

3 Select [SPDIF Selection] and set

Menu | Item | Adjustments / Configurations (alternatives)
---|---|---
Sound | SPDIF Selection | SPDIF : A standard audio transfer file format
Selects the initial setting for digital audio output signal from DIGITAL AUDIO OUT and HDMI2 (ARC function) terminals [Auto] / [PCM]
[Auto] : Dolby Digital Plus, Dolby Digital and HE-AAC (48 kHz) multi-channel are output as Dolby Digital Bitstream.
MPEG is output as PCM.
[PCM] : Digital output signal is fixed to PCM.

VIERA Connect

You can access VIERA Connect and enjoy various network contents.

• VIERA Connect requires a broadband internet connection. Dial-up internet connections cannot be used.
• Ensure the network connections and network settings are completed. ➔ "Network connections" (p. 71), [Network Setup] (p. 72 - 76)
• For details about VIERA Connect operation ➔ “Using “VIERA Connect”” (p. 16)
• Setup menu (Items in [Setup] may change without notice.)

| Customize HomeScreen | Changes the position of each services on VIERA Connect home screen |
| My Account | Confirms or removes the account information of the TV you entered on VIERA Connect |
| Lock | Sets to restrict access to some services |
| Beep | Sets beep sound On or Off when operating VIERA Connect |
| Notices | Displays the information of VIERA Connect |

Note

• Be sure to update the software when a software update notice is displayed on the TV screen. If the software is not updated, you will not be able to use VIERA Connect.
You can update the software later manually ➔ [Software Update] in [Network Setup] (p. 76)
• VIERA Connect home screen is subject to change without notice.
• The services through VIERA Connect are operated by their respective service providers, and service may be discontinued either temporarily or permanently without notice. Therefore, Panasonic will make no warranty for the content or the continuity of the services.
• Some content may be inappropriate for some viewers.
• Some content may only be available for specific countries and may be presented in specific languages.
• Depending on the connection environment, the internet connection may be slow or may not be successful.
• During the operation, audio signal is output from AV1, AUDIO OUT, DIGITAL AUDIO OUT and HDMI2 (ARC function) terminals. But no video signals are output. AV1 can output audio signal if [AV1 out] is set to [Monitor] in the Setup Menu (p. 34). To use HDMI2 with ARC function, connect an amplifier that has ARC function (p. 82) and set to use theatre speakers (p. 88).
• You can restrict access to VIERA Connect ➔ [Child Lock] (p. 47)
• Turn the TV off, and then on again when changing or reconnecting the network connection.
Link Functions (Q-Link / VIERA Link)

Q-Link connects the TV and DVD Recorder / VCR, and enables easy recording, playback, etc. (p. 83)

VIERA Link (HDAVI Control™) connects the TV and the equipment with VIERA Link function, and enables easy control, convenient recording, playback, energy saving, creation of a home theatre, etc., without complicated setting. (p. 84 - 88)

You can use Q-Link and VIERA Link functions together.

- This TV supports “HDAVI Control 5” function. But available features are depending on the connected equipment’s version of HDAVI Control. Please refer to the manual of the equipment to confirm the version.
- VIERA Link features may be available even with other manufacturers’ equipment supporting HDMI CEC.

Summary of Q-Link and VIERA Link features

### Q-Link (SCART connection only)

<table>
<thead>
<tr>
<th>Features</th>
<th>Connected equipment</th>
<th>DVD Recorder / VCR with Q-Link function</th>
</tr>
</thead>
<tbody>
<tr>
<td>Analogue channel download</td>
<td>○</td>
<td></td>
</tr>
<tr>
<td>Easy playback</td>

</tr>
</tbody>
</table>

Connection

- Use a fully wired HDMI compliant cable.
- Connect the equipment supporting VIERA Link to the TV’s HDMI1 or HDMI2 terminal via an HDMI cable.
- For information about using HDMI cables for connecting Panasonic HD Video Camera or LUMIX Camera, read the manual of the equipment.

### VIERA Link (HDMI and SCART connections)

<table>
<thead>

**Connection**

- **To use Player theatre / Blu-ray Disc theatre:**
  - HDMI cable
  - Optical digital audio cable
  - RCA cable
  - SCART cable

- **To use Amplifier:**
  - HDMI cable
  - Optical digital audio cable
  - RCA cable
  - SCART cable

HD Video Camera / LUMIX Camera with VIERA Link function

- Use fully wired HDMI compliant cable.
- Connect the equipment supporting VIERA Link to the TV’s HDMI2, HDMI3 or HDMI4 terminal via an HDMI cable.
- Use fully wired SCART cable.
- If you use a SCART cable for audio output, connect the equipment supporting VIERA Link to the TV’s AV1 terminal and set [AV1 out] to [Monitor] in the Setup Menu (p. 34).
- Use the optical digital audio cable, RCA cable or SCART cable for audio output from the TV.

- *1 : Available with the equipment which has “HDAVI Control 2 or later” function.
- *2 : Available with the equipment which has “HDAVI Control 3 or later” function.
- *3 : Available with the equipment which has “HDAVI Control 4 or later” function.
- *4 : Available with DIGA Recorder which has HDD.
- *5 : While playing a disc
- *6 : Except for watching a disc
- *7 : If the connected equipment has “HDAVI Control 5” function, you do not have to use this audio cable (Optical digital audio cable, RCA cable or SCART cable). In this case, connect the equipment to the TV’s HDMI2 terminal via an HDMI cable.

**VIERA Link Control of compatible equipment ([VIERA Link Control] p. 86)**

- Table below displays maximum number of compatible equipment that can be controlled by VIERA Link Control. This includes connections to equipment already connected to the TV.

<table>
<thead>
<tr>

Preparations

- Connect the DVD Recorder / VCR with the following logos:
  “Q-Link”, “NEXTVIEWLINK”, “DATA LOGIC (a trademark of Metz Corporation)”, “Easy Link (a trademark of Philips Corporation)”,
  “Megalogic (a trademark of Grundig Corporation)” or “SMARTLINK (a trademark of Sony Corporation)”
- Q-Link connection ➤ (p. 81)
- Use fully wired SCART cable.
- Set up the DVD Recorder / VCR. Read the manual of the recorder.
- Q-Link terminal setup in the Setup Menu ➤ [AV1 out] (p. 34)
- Download Analogue channel setting ➤ “Analogue channel download” (see below)

Features available

Analogue channel download

Analogue channel settings can be downloaded to a recorder with an analogue tuner (where Analogue is still broadcast). Digital channel settings are not downloaded.
- To download the Analogue channel settings ➤ [Q-Link Download] (p. 34) or [Auto Setup] in Analogue mode (p. 40) or
  “Auto Setup” - when first using the TV (p. 12)

Direct TV Recording - What you see is What you record

Recording the current programme on a DVD Recorder / VCR immediately.
- Available conditions:

<table>

</table>

- When Direct TV Recording is performed, the recorder is automatically turned on if it is in Standby mode.
- Changing channel or turning off the TV is available while the recorder is recording from its own tuner.
- Changing channel is not available while the recorder is recording from the TV tuner.

To stop recording

Unlock the tuner

Power on link and Easy playback

When the DVD Recorder / VCR starts playback or the direct navigator / function menu for the equipment is activated, the TV is turned on and the input mode is switched automatically so that you can view the content. (Only when the TV is in Standby mode.)

Power off link

When the TV is set to Standby mode, the recorder is also automatically set to Standby. (Only when the videocassette or disc is not active.)
- This function will work even if the TV enters Standby mode automatically by auto power standby function.

Note

- Some recorders are not compatible. Read the manual of the recorder.
**VIERA Link “HDAVI Control™”**

*Enjoy additional HDMI Inter-Operability with Panasonic products which have “HDAVI Control” function.*

This TV supports “HDAVI Control 5” function.
Connections to the equipment (DIGA Recorder, HD Video Camera, Player theatre, Amplifier, etc.) with HDMI and SCART cables allow you to interface them automatically (p. 81, 82).

These features are limited to models incorporating “HDAVI Control” and “VIERA Link”.
- Some functions are not available depending on the equipment’s version of HDAVI Control. Please confirm the connected equipment’s version of HDAVI Control.
- VIERA Link “HDAVI Control”, based on the control functions provided by HDMI which is an industry standard known as HDMI CEC (Consumer Electronics Control), is a unique function that we have developed and added.
  As such, its operation with other manufacturers’ equipment that supports HDMI CEC cannot be guaranteed.
- Please refer to individual manuals for other manufacturers’ equipment supporting VIERA Link function.
- For information about applicable Panasonic equipment, consult your local Panasonic dealer or refer to www.panasonic.co.uk

**Preparations**
- Connect the equipment that supports VIERA Link.
- VIERA Link connection (p. 81, 82)
  Use a fully wired HDMI compliant cable. Non-HDMI-compliant cables cannot be utilised.
  Recommended Panasonic HDMI cables’ part numbers:
  - RP-CDHS15 (1.5 m)  •  RP-CDHS30 (3.0 m)  •  RP-CDHS50 (5.0 m)
- Use a fully wired SCART cable.
- Set up the connected equipment. Read the manual of the equipment.
- For optimal recording, the settings of the recorder may need to be changed. For details, read the manual of the recorder.
- Download Analogue channel setting “Analogue channel download” (see below)
- Set [VIERA Link] [On] in the Setup Menu [VIERA Link] (p. 34)
- Set up the TV
  ➤ After connection, turn the equipment on and then switch the TV on.
  Select the input mode to HDMI1, HDMI2, HDMI3 or HDMI4 (p. 27), and make sure that an image is displayed correctly.
  This setup should be done each time when the following conditions occur:
  - for the first time
  - when adding or reconnecting equipment
  - when changing setup

**Features available**

**Analogue channel download**

Analogue channel settings can be downloaded to a recorder with an analogue tuner (where Analogue is still broadcast). Digital channel settings are not downloaded.
- To download the Analogue channel settings ➤ [Q-Link Download] (p. 34) or [Auto Setup] in Analogue mode (p. 40) or “Auto Setup” - when first using the TV (p. 12)

**Easy playback**

Automatic Input switching - When the connected equipment is operated (during playback or menu operations, etc.), the input mode is switched automatically. When playback is stopped or menus are exited, the input mode returns to the original setting.

**Power on link**

When the connected equipment starts playback or the direct navigator / function menu for the equipment is activated, the TV is automatically turned on and the input mode is switched automatically so that you can view the content. (Only when the TV is in Standby mode.)

**Power off link**

When the TV is set to Standby mode, the connected equipment is also automatically set to Standby.
- This function will work even if the TV enters Standby mode automatically by auto power standby function.
Reduce unnecessary power consumption in standby [Standby Power Save]

Set Standby Power Save [On] in the Setup Menu to use this function ➔ [Standby Power Save] (p. 34)
The power consumption in Standby mode of the connected equipment is controlled in synchronization with the TV On / Off state.
When the TV is set to Standby mode, the connected equipment is automatically set to Standby and the power consumption in Standby mode of the connected equipment is automatically minimised.
When the TV is turned on and the connected equipment is still in Standby mode, the power consumption of the connected equipment is increased to reduce the startup time.
- This function is effective if the connected equipment can change the power consumption in Standby mode and is set to higher consumption.

Auto standby for unnecessary equipment [Intelligent Auto Standby]

Set Intelligent Auto Standby [On (With reminder)] or [On (No reminder)] in the Setup Menu to use this function ➔ [Intelligent Auto Standby] (p. 34)
When the TV is On, non-watched or non-used connected equipment goes into Standby mode automatically to reduce power consumption. For example, when the input mode is switched from HDMI, the connected equipment will go into Standby mode / when Speaker Selection is changed to [TV], the Player theatre will go into Standby mode (except when watching a disc).
- If you select [On (With reminder)], the on screen message will be displayed before the connected equipment turns to Standby.
- This function may not work properly depending on the connected equipment. If required, set to [Off].

Direct TV Recording - What you see is What you record [Direct TV Rec]

Recording the current programme on a DIGA Recorder immediately.
- If you connect a variety of recorders including other manufacturers' recorders at the same time, please connect the DIGA Recorder to the TV's lower HDMI terminal number. For example, if you use HDMI1 and HDMI2 for two recorders, connect the DIGA Recorder to HDMI1.
- If Direct TV Recording does not operate, check the settings and the equipment ➔ “Summary of Q-Link and VIERA Link features” (p. 81, 82), “Preparations” (p. 84)
- If you wish to record a programme that the DIGA Recorder does not support, a SCART connection is required and the programme is recorded by Q-Link function (p. 83).
- Depending on the programme, a SCART connection may be required to record.
- Changing channel or turning off the TV is available while the recorder is recording from its own tuner.
- Changing channel is not available while the recorder is recording from the TV tuner.

1 Display [VIERA Link Menu]

2 Select [Direct TV Rec] and start recording

To stop recording

Select [Stop] in [Direct TV Rec]

- You can also stop recording directly.

Unlock the tuner

Tuner Locked
Press EXIT to unlock and stop recording
You can pause the live TV programme and resume the programme later. The live TV programme will be recorded on HDD of the connected DIGA Recorder.

- This function is available with a DIGA Recorder which has HDD.
- If you connect a variety of recorders including other manufacturers’ recorders at the same time, please connect the DIGA Recorder which has HDD to the TV’s lower HDMI terminal number. For example, if you use HDMI1 and HDMI2 for two recorders, connect the DIGA Recorder which has HDD to HDMI1.
- If Pause Live TV does not operate, check the settings and the equipment

“Summary of Q-Link and VIERA Link features” (p. 81, 82), “Preparations” (p. 84)

**Pause Live TV programme [Pause Live TV]**

1. Display [VIERA Link Menu]
2. Select [Pause Live TV] and pause

The TV picture will be paused.

<table>
<thead>
<tr>
<th>VIERA Link Menu</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pause Live TV</td>
</tr>
<tr>
<td>Direct TV Rec</td>
</tr>
<tr>
<td>VIERA Link Control</td>
</tr>
<tr>
<td>Speaker Selection</td>
</tr>
</tbody>
</table>

- Live TV programme is recorded on HDD from where it was paused.
- If the paused TV picture disappears after a few minutes.

**OPTION**

- (the paused picture will be restored)
- Follow the operation guide to operate Pause Live TV function.

**To operate Pause Live TV**

- search backward
- pause
- search forward
- playback
- stop

- If you stop playback, the recorded programme will be deleted from HDD.

**To return to Live TV**

1. Display [VIERA Link Menu]
2. Select [Pause Live TV] and stop

Select [Yes]

<table>
<thead>
<tr>
<th>Pause Live TV</th>
</tr>
</thead>
<tbody>
<tr>
<td>Stop Pause Live TV?</td>
</tr>
<tr>
<td>Yes</td>
</tr>
</tbody>
</table>

- If you stop playback or cancel pause, the recorded programme will be deleted from HDD.

**Control the menu of the connected equipment by VIERA remote control [VIERA Link Control]**

You can control some functions of the connected equipment with this TV remote control (point the remote control at the TV’s signal receiver).

- If you cannot operate the menu of the connected equipment, check the settings and the equipment

“Summary of Q-Link and VIERA Link features” (p. 81, 82), “Preparations” (p. 84)

- For details of the operations for the connected equipment, read the manual of the equipment.
3 Select the equipment you want to access

The type of the connected equipment is displayed. Select the type of the equipment and access.

- VIERA Link Menu
- Pause Live TV
- Direct TV Rec
- VIERA Link Control
- Speaker Selection

- You can also access directly by using VIERA TOOLS → “How to Use VIERA TOOLS” (p. 29)
- The displayed item may vary depending on the connected equipment.
- [Home Cinema] means Player theatre, Blu-ray Disc theatre or Recorder theatre.
- [Other] means Tuner set top box.

The menu of the accessed equipment (Input mode will be changed automatically)

4 Operate the menu of the equipment

Available VIERA remote control buttons:
(depending on the connected equipment)

1 Set the position to "TV"

2 Follow the operation guide

- To display the operation guide

If other manufacturers’ equipment is accessed, Setup / Contents Selection menu may be displayed.

- When the key words are displayed on colour bar

Note some operations may not be available depending on the equipment. In this case use its own remote control to operate the equipment.

If multiple recorders or players are connected

The number is given from the TV’s lower HDMI terminal number connected to the same type equipment. For example, two recorders to HDMI2 and HDMI3, in this case the recorder connected to HDMI2 is displayed as [Recorder1-3 / Player1-3].

If you access non-VIERA Link equipment

The type of the connected equipment is displayed. You can access the menu of the equipment. But you cannot operate it. Use its own remote control to operate the equipment.
Speaker control [Speaker Selection]

You can control the home theatre speakers with this TV remote control (point the remote control at the TV’s signal receiver).

- If you cannot operate, check the settings and the equipment
  - “Summary of Q-Link and VIERA Link features” (p. 81, 82), “Preparations” (p. 84)

1. Display [VIERA Link Menu]

2. Select [Speaker Selection]

   [Speaker Selection]
   - VIERA Link Menu
   - Pause Live TV
   - Direct TV Rec
   - VIERA Link Control
   - Speaker Selection
     - Recorder
     - Home Cinema

3. Set to [Home Cinema] or [TV]

   [Home Cinema]
   - The Player theatre, Blu-ray Disc theatre or Amplifier will be automatically turned on if it is in Standby mode and the sound will be output from theatre speakers connected to the equipment.
     - Volume up / down
     - Mute
     - The sound of the TV speakers is muted.
     - When the equipment is turned off, the TV speakers will be activated.

   [TV]
   - TV speakers are active.

Multi-channel sound

If you wish to enjoy multi-channel sound (e.g. Dolby Digital 5.1ch) via an Amplifier, connect the Amplifier to the TV with an HDMI cable and an Optical digital audio cable (p. 82), and then select “Home Cinema”. If your Amplifier has “HDAVI Control 5” function, you only need to connect with an HDMI cable. In this case, connect your Amplifier to the TV’s HDMI2 terminal.

To enjoy the sound from the DIGA Recorder in multi-channel sound, connect an HDMI cable from the DIGA Recorder to the Amplifier (p. 82).

---

Note

- These functions may not work properly depending on the connected equipment.
- Image or sound may not be available for the first few seconds when input mode is switched.
- Easy playback may be available by using the remote control for Player theatre, Blu-ray Disc theatre or Amplifier. Read the manual of the equipment.
- “HDAVI Control 5” is the newest standard (current as of December, 2010) for HDAVI Control compatible equipment. This standard is compatible with conventional HDAVI equipment.
- To confirm this TV’s version of HDAVI Control ⇒ [System Information] (p. 36)
External Equipment

These diagrams show our recommendations for connection of your TV to various pieces of equipment. For other connections, consult the instructions for each piece of equipment, the table below, and the specifications (p. 106, 107).

**To record / playback**

- **Terrestrial aerial**
  - RF cable
  - Fully wired SCART cable
  - DVD Recorder / VCR

**To watch satellite broadcasts**

- **HD Satellite receiver**
  - Fully wired SCART cable
  - Fully wired HDMI compliant cable

**To watch DVDs**

- **DVD Player**
  - (Listening)
  - (Viewing)

**HDMI equipment**

- **Recorder / Player**
  - Camcorder

* HDMI connection (p. 96)
Network (wired)

- Internet
  - Modem
  - Hub or Router
  - LAN cable (Shielded)

USB devices

- Wireless LAN Adaptor
- USB cable
- USB HDD

PC

- Conversion adaptor (if necessary)
- Computer

To listen with speakers

- Optical digital audio cable
- RCA cable
- Amplifier with speaker system

To enjoy the sound from the external equipment in multi-channel sound (e.g. Dolby Digital 5.1ch), connect the equipment to the amplifier. For the connections, read the manuals of the equipment and amplifier.
### Side panel of the TV

**Camcorder / Game equipment**

- **Viewing**
- **Listening**

**Headphones**

- (M3 stereo mini plug)

- To adjust volume
  - [Headphone Volume] (p. 33)

#### Types of connectable equipment to each terminal

○ : Recommended Connection

*1 : Use HDMI1 for automatic input switching.

*2 : Use HDMI2 for connecting an amplifier. This connection is applicable when using an amplifier that has ARC (Audio Return Channel) function.

*3 : Use USB 1 port for connecting the USB HDD.
Technical Information

Auto Aspect

The optimum size and aspect can be chosen automatically, and you can enjoy finer images. ➔ (p. 20)

Aspect Control Signal

[WIDE] will appear in the top left of the screen if a Widescreen signal (WSS) or a Control signal through SCART / HDMI terminal is found.

The aspect will switch to the appropriate 16:9 or 14:9 widescreen ratio.

This function will work in any aspect mode.

<table>

</tbody>
</table>

Auto mode

Auto mode determines the best aspect ratio to fill the screen. It does this using a four step process (WSS, Control signal through SCART / HDMI terminal, Letterbox detection or Justify to fill the screen).

This process may take several minutes, depending on the darkness of the image.

Letterbox detection:

If black bands at the top and bottom of the screen are detected, Auto mode chooses the best ratio and expands the image to fill the screen.

If no aspect signals are detected, Auto mode enhances the image for optimum viewing pleasure.

Note

• The ratio varies depending on the programme, etc. If the ratio is out of the standard 16:9, black bands at the top and bottom of the screen may appear.

• If the screen size looks unusual when a widescreen-recorded programme is played back on a VCR, adjust the tracking of the VCR. Read the manual of the VCR.
### Supported file format in Media Player and media servers

**Note**

- Some files may not be played back even if they fulfill these conditions.
- Do not use two-byte characters or other special codes for data.
- The device may become unusable with this TV if the file or folder names are changed.

## DivX

DivX Certified® to play DivX® and DivX Plus™ HD (H.264/MKV) video up to 1080p HD including premium content.

**ABOUT DIVX VIDEO:**

DivX® is a digital video format created by DivX, Inc. This is an official DivX Certified® device that plays DivX video. Visit divx.com for more information and software tools to convert your files into DivX video.

**Subtitle text file of DivX**

Subtitle format - MicroDVD, SubRip, TMPlayer

- The DivX video file and subtitles text file are inside the same folder, and the file names are the same except for the file extensions.
- If there are more than one subtitles text files inside the same folder, they are displayed in the following order of priority: “.srt”, “.sub”, “.txt”.
- To confirm or change the current subtitle status while playing DivX content, press the OPTION button to display Option Menu.
- Depending on the methods used to create the file or the state of recording, only parts of the subtitles may be displayed, or the subtitles may not be displayed at all.

**Note**

- Depending on how you make SD Card, USB Flash Memory or the media server, files and folders may not be displayed in the order you numbered.
- Depending on how you create the files and the structure of folders, the files and folders may not be displayed.
- When there are many files and folders, operation may take time to complete or some files may not be displayed or playable.

**ABOUT DIVX VIDEO-ON-DEMAND:**

This DivX Certified® device must be registered in order to play purchased DivX Video-on-Demand (VOD) movies. To obtain your registration code, locate the DivX VOD section in the Setup Menu. Go to vod.divx.com for more information on how to complete your registration.

**To show DivX VOD registration code**

- [DivX® VOD] in the Setup Menu (p. 36)

- If you want to generate the new registration code, you have to deregister the present registration code. After playing DivX VOD content once, the confirmation screen to deregister will be displayed in [DivX® VOD] in the Setup Menu. If you press the OK button on the confirmation screen, the deregistration code will be generated and you will not be able to play any contents that you purchased using the present registration code.

- You will obtain the new registration code by pressing the OK button on the deregistration code screen.

- If you purchase DivX VOD content using a registration code different from this TV’s code, you will not be able to play this content. ([Your device is not authorized to play this DivX protected video.] is displayed.)

**Regarding DivX content that can only be played a set number of times**

Some DivX VOD content can only be played a set number of times.

When you play this content, the remaining number of plays is displayed. You cannot play this content when the number of remaining plays is zero. ([This DivX rental has expired.] is displayed.)

- When playing this content, the number of remaining plays is reduced by one in the following conditions:
  - If you exit the current application.
  - If you play the other content.
  - If you go to the next or previous content.
Devices for recording or playing back

**SD Card** (for playing back in Media Player)
Card format: SDXC Card - exFAT  SDHC Card / SD Card - FAT16 or FAT32
Compliant card type (maximum capacity): SDXC Card (64 GB), SDHC Card (32 GB), SD Card (2 GB), miniSD Card (2 GB) (requiring miniSD adaptor)
- If miniSD Card is used, insert / remove it together with the adaptor.
- Check the latest information on the card type at the following website. (English only)
  http://panasonic.jp/support/global/cs/tv/
- Use an SD Card which meets SD standards. If not, it may cause the TV to malfunction.

**USB Flash Memory** (for playing back in Media Player)
USB Flash Memory format: FAT16, FAT32 or exFAT
- A USB HDD formatted by PC is not supported in Media Player.

**USB HDD** (for recording the digital TV programmes with this TV and playing back in Media Player)
The capacity of USB HDD that have been tested for the performance with this TV: From 160 GB to 3 TB
- Connect the USB HDD to the socket outlet to record and play back properly with this TV.
- Format the USB HDD with this TV in order to use it. (p. 54)
- Regarding the performance, not all USB HDDs are guaranteed. Check the USB HDDs that have been tested for the performance with this TV at the following website. (English only)
  http://panasonic.jp/support/global/cs/tv/

**Note**
- Data modified with a PC may not be displayed.
- Do not remove the device while the TV is accessing data (this can damage device or TV).
- Do not touch the pins on the device.
- Do not subject the device to a high pressure or impact.
- Insert the device in the correct direction (otherwise, device or TV may be damaged).
- Electrical interference, static electricity, or erroneous operation may damage the data or device.
- Back up the recorded data at regular intervals in case of deteriorated or damaged data or erratic operation of the TV.
  (Panasonic is not liable for any deterioration or damage of recorded data.)

</table>

**HDMI connection**

HDMI (high-definition multimedia interface) is the world’s first complete digital consumer AV interface complying with a non-compression standard.

HDMI allows you to enjoy high-definition digital images and high-quality sound by connecting the TV and the equipment.

HDMI-compatible equipment*1 with an HDMI or DVI output terminal, such as a DVD player, a set top box or a game equipment, can be connected to the HDMI terminal using an HDMI compliant (fully wired) cable.

For information about connections, see “External Equipment” (p. 89).

**Applicable HDMI features**

- Input audio signal:
  - 2ch Linear PCM (sampling frequencies: 48 kHz, 44.1 kHz, 32 kHz)
  - Input video signal:
    - 480i, 480p, 576i, 576p, 720p, 1080i and 1080p
    - “Input signal that can be displayed” (p. 98)
    - Match the output setting of the digital equipment.
- Input PC signal:
  - “Input signal that can be displayed” (p. 98)
  - Match the output setting of the PC.

**DVI connection**

If the external equipment has only a DVI output, connect to the HDMI terminal via a DVI to HDMI adaptor cable*3. When the DVI to HDMI adaptor cable is used, connect the audio cable to the audio input terminal.

**Note**

- Audio settings can be made on the [HDMI1 / 2 / 3 / 4 Input] in the Sound Menu. (p. 33)
- If the connected equipment has an aspect adjustment function, set the aspect ratio to 16:9.
- These HDMI connectors are “type A”.
- These HDMI connectors are compatible with HDCP (High-Bandwidth Digital Content Protection) copyright protection.
- Equipment having no digital output terminal may be connected to the input terminal of “COMPONENT” or “VIDEO” to receive analogue signals.
- This TV incorporates HDMI™ technology.
*1: The HDMI logo is displayed on HDMI-compliant equipment.
*2: Audio Return Channel (ARC) is a function to be able to send digital sound signals via an HDMI cable.
*3: Enquire at your local digital equipment retailer shop.
**PC connection**

A PC may be connected to this TV so that the PC screen is displayed and sound is heard from the TV.
- PC signals that can be input: Horizontal scanning frequency 31 to 69 kHz; vertical scanning frequency 59 to 86 Hz (more than 1,024 signal lines could result in incorrect display of the image).
- A PC adaptor is not necessary for the DOS/V-compliant D-sub 15-pin connector.

**Note**

- Some PC models cannot be connected to this TV.
- When using PC, set the colour display quality of PC to the highest position.
- For details of the applicable PC signals
- “Input signal that can be displayed” ➔ (p. 98)
- D-sub 15-pin connector signal

**USB connection**

- It is recommended to connect the USB HDD or USB Flash Memory directly to the TV’s USB ports.
- Some USB devices or USB HUB may not be used with this TV.
- You cannot connect any devices by using USB card reader.
- You cannot use two or more same kind of USB devices simultaneously except USB Flash Memory or USB HDD.
- Additional information for USB devices may be on the following website. (English only)

**USB Keyboard**

- The USB Keyboard which requires the driver is not supported.
- To change the language type ➔ [USB Keyboard Layout] (p. 36)
- Characters may not be displayed correctly on the TV screen depending on the connected keyboard or the keyboard layout setting.
- Some of the keys of USB keyboards may correspond to the operation of the remote control.

Applicable input signal for PC is basically compatible to HDMI standard timing.

**Note**

- Signals other than above may not be displayed properly.
- The above signals are reformatted for optimal viewing on your display.
- PC signal is magnified or compressed for display, so that it may not be possible to show fine detail with sufficient clarity.
How to use Windows 7 as a media server

Follow the examples below to set up Windows 7 for use as a media server.
Confirm the MAC Address of VIERA in [Network Setup] (p. 76).
The following procedure and screens are examples. For more information, refer to the help functions of Windows 7.

1. Open the Windows start menu and select [Control Panel].
   Select [HomeGroup] in Control Panel window.

2. Be sure [Pictures], [Music] and [Videos] of “Share libraries and printers” and [Stream my pictures, music, and videos to all devices on my home network] of “Share media with devices” are checked. (Check them and click [Save changes] if necessary). Then select [Choose media streaming options...].

3. In [Name your media library:] text box, enter a name that will identify your PC on VIERA.
   On the Show devices drop bar, select [All networks] to display all the available devices in the list. VIERA Name stored in the [Network Link Settings] (p. 72) will be displayed.
   Select the VIERA Name and click [Allowed] so that VIERA can access your PC.
   Then, click [OK].
   If the VIERA Name is not displayed correctly, click the device to confirm the MAC address of the device in property window. Find a device that has the same MAC address as VIERA: that is your VIERA.

4. To share photos, music and videos with VIERA, put photo files into [Public Pictures] folder and video files into [Public Videos] folder under \Computer\Local Disk (C:\):\Users\Public.
FAQs

Before requesting service or assistance, please follow these simple guides to resolve the problem. If the problem still persists, please contact your local Panasonic dealer or Panasonic Customer Care Centre for assistance. For details ➔ (p. 108)

**Block noise, frozen or disappearing image occurs in digital mode / White spots or shadow image (ghosting) occurs in Analogue mode / Some channels cannot be tuned**
- Check the position, direction and connection of the aerial.
- Check [Signal Condition] (p. 42). If [Signal Quality] is displayed in red, the digital signal is weak.
- Check your postcode area is able to receive the Freeview channels at www.freeview.co.uk
- Digital signals may be relatively low to prevent interference with analogue signals for the period of Digital Switchover. Check the schedule of Digital Switchover at www.digitaluk.co.uk
- Weather conditions will affect signal reception (heavy rain, snow, etc.), in particular in poor reception areas. Even during good weather, high pressure can cause poor reception of some channels.
- Due to the digital reception technologies involved, quality of the digital signals may be relatively low in some cases, despite good reception of analogue channels.
- Turn the TV off with the Mains power On / Off switch, and then on again.
- If problem persists, consult your local dealer.

**Neither image nor sound is produced**
- Is the TV in AV mode?
- Check the correct AV input mode is selected.
- Check the mains lead is plugged into the socket outlet.
- Has the TV been turned On?
- Check the Picture Menu (p. 31) and volume.
- Check all required cables and connections are firmly in place.

**Auto aspect**
- Auto aspect is designed to provide you with the best ratio to fill the screen. ➔ (p. 92)
- Press the ASPECT button if you would like to change the aspect ratio manually ➔ (p. 20)

**Black and white picture**
- When connecting with SCART, ensure the output setting of the external equipment is not S-Video.

**Input mode, i.e. EC/AV1 remains on the screen**
- Press the 1 button to clear this message.
  Press again to redisplay.

**Q-Link function does not work**
- Confirm SCART cable and connection.
  Also set [AV1 out] in the Setup Menu ➔ (p. 34)

**[VIERA Link] function does not work and an error message appears**
- Confirm the connection. ➔ (p. 81, 82)
- Turn the connected equipment on and then switch the TV on. ➔ (p. 84)

**Recording does not start immediately**
- Check the settings of the recorder. For details, read the manual of the recorder.

**There may be red spots, blue spots, green spots and black spots on the screen**
- This is a characteristic of liquid crystal panels and is not a problem. The liquid crystal panel is built with very high precision technology giving you fine picture details. Occasionally, a few non-active pixels may appear on the screen as a fixed point of red, green, blue or black. Please note this does not affect the performance of your LCD.

• Please also refer to “Neither image nor sound is produced” (p. 100) |
| Unusual sound from the TV | • When power is on, whirring sound of cooling fan or drive noise may be heard from inside the TV (not a sign of faulty operation). |
| **Digital Channel** | | |
| No programmes shown on TV Guide | • Reset channels. (p. 40)  
• Check the digital transmission by contacting Digital UK on 08456 50 50 50 or at www.digitaluk.co.uk  
• Check the analogue broadcast (if still available in your area).  
• Consult an aerial engineer to check the alignment of your aerial. |
| Cannot find a channel you have previously watched | • The channel may broadcast for part of the day.  
• Check the channel in the TV Guide. (p. 21)  
• Channel position numbers may be changed by broadcasters.  
• Reset channels. (p. 40) |
| **HDMI** | | |
| Sound is unusual | • Set the sound setting of the connected equipment to “2ch L.PCM”.  
• Check the [HDMI1 / 2 / 3 / 4 Input] setting in the Sound Menu. (p. 33)  
• If digital sound connection has a problem, select analogue sound connection. (p. 96) |
| Pictures from external equipment are unusual when the equipment is connected via HDMI | • Check the HDMI cable is connected properly. (p. 89)  
• Turn the TV and equipment Off, then turn them On again.  
• Check an input signal from the equipment. (p. 98)  
• Check the output resolution of the equipment.  
• Use equipment compliant with EIA/CEA-861/861D. |
| Cannot connect to the network | • Check the LAN cable is connected properly. (p. 71)  
• Check the connections and settings. (p. 71 - 76)  
• Check the network equipment and network environment.  
• The router may not be set to issue IP address automatically. If the network administrator prefers to allocate an IP address, set an IP address manually. (p. 73)  
• The router may be using MAC address filtering (security setting).  
• Confirm the MAC Address of this TV (p. 76) and set the router to be able to use it.  
• If the problem persists, consult your Internet Service Provider or telecommunications company. |
| Cannot select the file during DLNA operations | • Is media server of the connected equipment prepared? (p. 70)  
• Check applicable data format. (p. 93, 94) |
| Cannot operate VIERA Connect | • Check the connections and settings. (p. 71 - 76)  
• The server or connected line might be busy now. |
| **Network** | | |
| The TV does not switch On | • Press and hold the standby On / Off switch on the remote control for about 1 second if Power LED is red.  
• Check the mains lead is plugged into the socket.  
• The fuse in the mains plug may have blown. Replace it with one of an identical rating (p. 4) |
| The TV goes into Standby mode | • Auto power standby function is activated. (p. 9)  
• The TV enters Standby mode about 30 minutes after analogue broadcast ends. |
<table>
<thead>
<tr>
<th>Problem</th>
<th>Actions</th>

</thead>
</table>
| The remote control does not work or is intermittent | * Are the batteries installed correctly? *(p. 7)*  
* Has the TV been switched On?  
* The batteries may be running low. Replace them.  
* Point the remote control directly at the front of the TV (within about 7 m and a 30 degree angle of the front of the TV).  
* Situate the TV so that sunshine or other sources of bright light do not shine on the TV’s remote control signal receiver. |
| Parts of the TV become hot | * Temperature rises of parts of the front, top and rear panels will not pose any problems in terms of performance or quality of the TV. |
| The LCD panel moves slightly when it is pushed with a finger | * There is some flexibility around the panel to prevent damage to the panel.  
* The panel might move slightly when it is pushed with a finger, and clattered sound might be heard. This is not a malfunction. |
| Clattered sound might be heard | |
| Overcurrent error message appears | * The connected USB device might cause this error. Remove the device and turn the TV Off with Mains power On / Off switch, then turn it On again.  
* Check if foreign objects are inside the USB port. |
| An error message appears | * Follow the message’s instructions.  
* If the problem persists, contact your local Panasonic dealer or the authorized Service Centre. |

| New channels found! Press OK to update channel list. Press EXIT to ignore. | • There may be new channels available.  
• This message will appear each time a change is made by the broadcasters. This message can be deactivated by setting [New Channel Message] to Off in [DVB Tuning Menu].  
Selecting OK will perform [Update Channel List]. |
| No channel found. Please check aerial or local signal availability. Press OK to start Auto Setup. | • Follow the on screen instructions.  
• Please also refer to p. 100.  
• If channels are still not found, consult your local Panasonic dealer. |
| No module inserted | • Check the CI module is inserted completely (p. 51). |
| No recording - Already recording | • The equipment may already be recording. |
| No recording - Check media | • The tape or disc may be “write protected”, full, missing or damaged. |
| No recording - Playing | • The equipment may be playing the tape or disc. |
| No recording - Unknown reason | • The recording may not be performed. Check the equipment. |
| No service | • The broadcaster has stopped the service. Check the channel in the TV Guide. (p. 21) |
| No signal | • The TV cannot detect the signal. Check the connection of the RF cable. |
| Overcurrent error on USB device occurred. Please remove the USB device, and switch off the TV by mains power switch. | • The connected USB device might cause overcurrent error. Follow the on screen instructions.  
• Check if foreign objects are inside the USB port. |
| PIN incorrect! | • The PIN number you entered is wrong. |
| Please check settings and connections on HDMI devices. | • Communication error in VIERA Link function (p. 84). |
| Please wait. | • A function is in progress. |
| Recording this channel now | • The recorder is recording the programme from its own tuner. You can turn the TV off and leave the equipment recording in the normal way. |
| Reset to Factory Shipping Condition Completed. Please switch off TV. | • [Auto Setup] will automatically start when Mains power On / Off switch is next turned On. (p. 12) |
| Sending Preset Data | • Q-Link or VIERA Link channel download is in progress. |
| Software successfully updated. Press EXIT to continue. | • The software updating is finished. |
If this is still unsuccessful, there may not be any new software available. |
| The device is not directly connected to the TV. The device may not work correctly. | • Please do not connect the device via a USB HUB. |
| This timer will not follow the TV Guide information. Press OK to continue, RETURN to restore original timer. | **UK only**  
• If you edit the start time or end time of Guide link programming by more than 10 minutes, it will no longer be performed as Guide link programming. The programming will be performed according to the time setting. |
| Timer already expired ! | • The starting time in Timer Programming has already passed. Set the timer correctly (p. 46). |
| Timer incorrect ! | • Set the start and end times in Timer Programming correctly (p. 46). |
| Timer overlap. Press OK to keep, RETURN to edit. | • Timer programming events are overlapped. Press the OK button to keep the overlapped setting. [Ext Rec.] and [USB HDD Rec.] are given priority over [Reminder]. When two or more [Ext Rec.] / [USB HDD Rec.] overlap, the first timer programming event starts and finishes as programmed. The next timer programming event can then start. |
| Tuner Locked Press EXIT to unlock and stop recording | • If you want to unlock the tuner, cancel Direct TV Recording (p. 83, 85), the recording of Timer Programming (p. 46) or One Touch Recording (p. 56). |
| Unable to download, please check equipment | • The tape or disc is active. Stop the equipment and try again. |

## Glossary

**DLNA**
Digital Living Network Alliance

**DVI**
Digital Visual Interface - A high quality video interface standard to connect to the display

**ETHERNET**
One of the popular standards of LAN

**EPG**
Electronic Programme Guide - A digital guide showing scheduled programmes

**HDMI**
High-Definition Multimedia Interface - A digital audio and video interface for transmitting uncompressed digital signals on a single cable

**LAN**
Local Area Network

**MAC Address**
Media Access control Address

**NICAM**
Near Instantaneous Companded Audio Multiplex - A format for digital sound over television

**NTSC**
National Television System Committee - One of the television signals used in USA, etc.

**RF**
Radio Frequency - Signal received from terrestrial aerial

**RGB / Video**
Choose between these three video formats depending on personal preference and equipment requirement (RGB - Red, Green and Blue)

**SCART**
21 pin connection used for video, audio and switching signals (Also known as Euro SCART and Peritel)

**Shop viewing environment**
Shop viewing environment is the demonstration mode to explain main features of this TV in an easy understandable way. This mode will work if you select [Shop] in “Auto Setup” (p. 15).

**SPDIF**
A standard audio transfer file format

**USB**
Universal Serial Bus - An interface specification to connect devices

**VCR**
Video Cassette Recorder

**24p**
Progressive images recorded at a rate of 24 frames per second (film source)

## Maintenance

First, remove the mains plug from the socket outlet.

### Display panel, Cabinet, Pedestal

**Regular care:**
Gently wipe the surface of the display panel, cabinet, or pedestal by using a soft cloth to clean the dirt or fingerprints.

**For stubborn dirt:**
Dampen a soft cloth with clean water or diluted neutral detergent (1 part detergent to 100 parts water). Then wring the cloth and wipe the surface. Finally, wipe away all the moisture.

**Caution**
• Do not use a hard cloth or rub the surface too hard. This may cause scratches on the surface.
• Take care not to subject the TV's surfaces to water or detergent more than requires. A liquid inside the TV could lead to product failure.
• Take care not to subject the surfaces to insect repellent, solvent, thinner or other volatile substances. This may degrade surface quality or cause peeling of the paint.
• The surface of the display panel is specially treated and may be easily damaged. Take care not to tap or scratch the surface with your fingernail or other hard objects.
• Do not allow the cabinet or pedestal to make contact with a rubber or PVC substance for a long time. This may degrade surface quality.

### Mains plug

Wipe the mains plug with a dry cloth at regular intervals. Moisture and dust may lead to fire or electrical shock.

Information for Users on Collection and Disposal of Old Equipment and used Batteries

These symbols on the products, packaging, and/or accompanying documents mean that used electrical and electronic products and batteries should not be mixed with general household waste. For proper treatment, recovery and recycling of old products and used batteries, please take them to applicable collection points, in accordance with your national legislation and the Directives 2002/96/EC and 2006/66/EC.

By disposing of these products and batteries correctly, you will help to save valuable resources and prevent any potential negative effects on human health and the environment which could otherwise arise from inappropriate waste handling.

For more information about collection and recycling of old products and batteries, please contact your local municipality, your waste disposal service or the point of sale where you purchased the items. Penalties may be applicable for incorrect disposal of this waste, in accordance with national legislation.

For business users in the European Union
If you wish to discard electrical and electronic equipment, please contact your dealer or supplier for further information.

[Information on Disposal in other Countries outside the European Union]
These symbols are only valid in the European Union. If you wish to discard these items, please contact your local authorities or dealer and ask for the correct method of disposal.

Note for the battery symbol (bottom two symbol examples):
This symbol might be used in combination with a chemical symbol. In this case it complies with the requirement set by the Directive for the chemical involved.
